STAP 4 VAN 8

Take the waist section that has fallen out from the middle of the die-cut dress shape. This piece will be used later in the project.

STAP 5 VAN 8

Place the waist section into a 3D embossing folder to create dimensional texture. Position the card piece inside the folder and ensure it is properly aligned before embossing.

STAP 6 VAN 8

Position the embossed waist piece back into the card aperture. You can place it flat or curve it slightly outward for added dimension.

STAP 7 VAN 8

Pop out the die-cut floral elements from the design. Position and arrange the blue flowers and foliage pieces to add dimension to your card.

STAP 8 VAN 8

Gently lift and bend some of the blue floral elements upwards to create dimension and movement around the frame. This adds depth to the finished card design.

TIPS UIT DE SHOW

- Do not be too precious about getting all elements stuck down flat; slight lifting creates better dimension.
- Use a poke tool to push elements underneath whilst keeping the raised parts visible.
