EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT SHOW 7TH ARPIL - 7 APRIL 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create stunning watercolour-style layered flowers using a four-layer stamping system with coordinating dies. This project shows you how to build up realistic blooms in soft pink and yellow tones, perfect for cards and papercrafts. The technique uses the WOW Blooms stamp and die set to achieve beautiful dimensional floral designs in just five simple steps.

Place the coordinating die over your stamped floral design. Run the layered piece through your die-cutting machine in one pass to cut all the layers together.

STAP 6 VAN 7

Carefully pop out the die-cut pink bloom from the carrier sheet. The flower should release cleanly from the surrounding material.

STAP 7 VAN 7

Adhere the finished layered bloom to your card base using double-sided tape or foam pads for added dimension. Position the flower arrangement centrally on the white card front to complete your watercolour floral card.

TIPS UIT DE SHOW

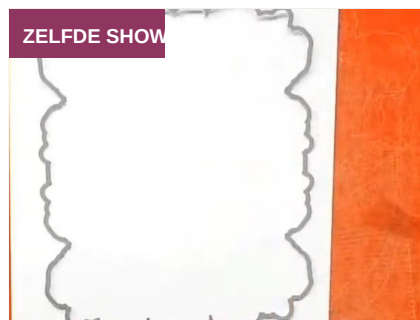

- Line up the heart registration system on each layer; the rest of the design will look after itself.
- You can batch-make these by stamping all layer ones on multiple cards, then all layer twos, and so on for efficiency.
- If you only have one shade of green, start light and press harder on each subsequent layer to create depth.
