STAP 4 VAN 8

Glue the three pot layers together in order, starting with the brown pot base, then the gold/tan middle layer, and finally the darker brown top piece. Layer them to create dimension, ensuring each piece is aligned and securely adhered.

TIPS UIT DE SHOW

- Manipulate the basket pieces to create shape and movement rather than keeping everything flat.
- You can tuck the pot legs through the basket opening to make it look more realistic, as if the pot is actually sitting in the basket.
