

Celebration Crystal Art Stamp Card with Birthday Balloons

EEN PROJECT UIT ONZE LIVESHOW - HSN CRAFT SHOW - 28 MAART 2023

OVER DIT PROJECT

Create a stunning birthday card featuring celebration-themed crystal art stamps. This project uses black outline stamps with built-in guidance circles that you fill with vibrant resin crystals to create sparkling birthday balloons, cupcakes and festive sentiments. The result is a dimensional, eye-catching card with a paint-by-numbers approach that makes crystal art accessible and fun.

2

Apply ink to the stamp using your chosen colours. You can select colours to suit your occasion - red and green for Christmas, pink and blue for baby showers, or any colour combination you prefer.

STAP 3 VAN 8

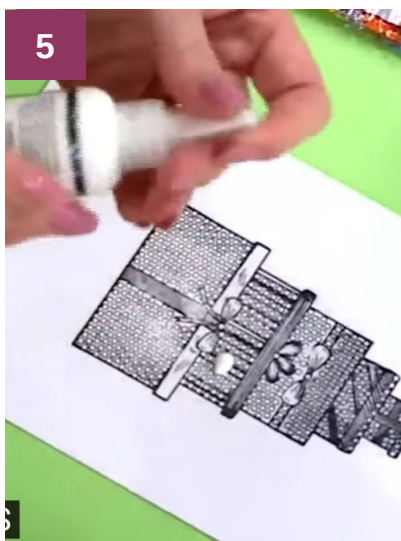

Position your chosen stamp onto the white card and press down firmly and evenly to transfer the image. Ensure you apply consistent pressure across the entire stamp to achieve a clear, complete impression.

STAP 4 VAN 8

Apply the included magic glue to the stamped areas where you want to place crystals. Use the stamp's guidance marks as your reference to ensure even coverage. Work carefully to keep the glue within the stamped design areas.

STAP 5 VAN 8

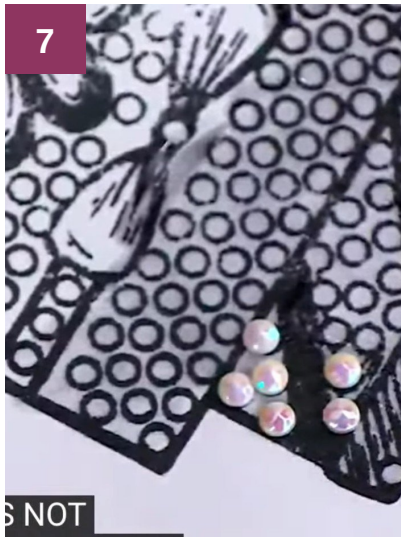

Prepare your crystal pen by removing the cap and filling it with the included gel. This makes the pen tip sticky enough to pick up the resin crystals for application.

STAP 6 VAN 8

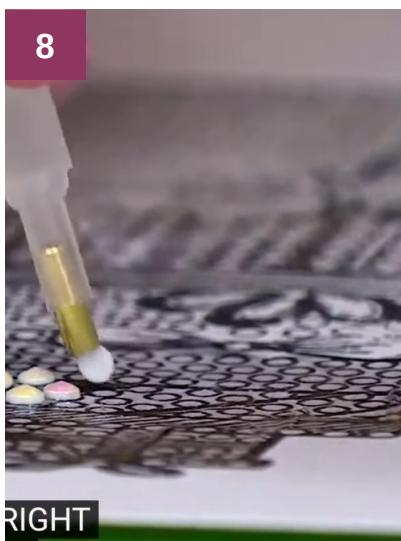

Use the sticky pen to pick up individual crystals from the tray and place them onto the glued areas of your stamped design. The pen's tackiness allows you to precisely position each crystal onto the adhesive sections of the card.

STAP 7 VAN 8

If you place a crystal slightly outside the lines, gently nudge it into position whilst the magic glue is still tacky. Use the tip of your pen to carefully move the crystal to the correct spot.

[BEKIJK DEZE STAP - 5:15](#)

STAP 8 VAN 8

Continue adding crystals in your chosen colours to complete the design, using the stamp's pattern as your guide. Place each crystal carefully onto the adhesive surface, filling in all the areas of your chosen design.

TIPS UIT DE SHOW

- The magic glue never dries, so you can work on your card at your own pace over several days if needed.
- You receive one and a half times the number of crystals you need to complete the project, giving you extra for experimentation.
- The glue has enough give that you can nudge crystals into position if they land slightly off target.
