

Crystal Art-krans met vlinder- en tulpenontwerp

EEN PROJECT UIT ONZE LIVESHOW - HSN CRAFT SHOW - 28 MAART 2023

OVER DIT PROJECT

Create a stunning decorative wreath featuring vibrant crystal art in your choice of two designs: a colourful butterfly pattern or a bright tulip arrangement. Using the paint-by-numbers style technique, you'll apply sparkling resin crystals to a pre-glued MDF wreath base to create a dazzling display piece. The finished wreaths showcase brilliant colours including greens, purples, pinks, and blues that catch the light beautifully.

Peel back the protective coating from the area you wish to work on to reveal the sticky adhesive surface underneath. Only expose the section you are ready to decorate with crystals.

STAP 3 VAN 8

Prepare your crystal pen by removing the cap and filling it with the included sticky gel. This will allow the pen tip to pick up the resin crystals easily.

STAP 4 VAN 8

Use the sticky pen to pick up individual crystals and place them onto the exposed sticky glue areas of the wreath design, following the colour palette guide provided. Work methodically to fill in each section with the corresponding crystal colours.

STAP 5 VAN 8

Work methodically through the design, peeling back small sections of the protective film as you progress. This keeps the adhesive fresh and prevents it from drying out. Continue placing crystals section by section across the wreath.

STAP 6 VAN 8

Use the purple finger holders included in the kit to keep your hands comfortable during the crafting session. The finger holders help you maintain a steady grip while placing the crystals on the wreath design.

STAP 7 VAN 8

Store any leftover crystals in the provided bags for future projects. You receive one and a half times the crystals needed, so keep the extras organised for your next creation.
