

Reflection Landscape Card with Moon and Water

EEN PROJECT UIT ONZE LIVESHOW - HSN CRAFT SHOW - 28 MAART 2023

OVER DIT PROJECT

Create a serene landscape card featuring a moon reflected in water using a single clever stamp that has the reflection built in. Apply watercolour backgrounds in blues, greens and sunset hues, then stamp the landscape and water reflection in one go. Add optional pen details and sparkle accents to bring your tranquil scene to life.

STAP VOOR STAP

1

STAP 1 VAN 7

Take your card base and position it on your craft mat ready for stamping. The card should be oriented with the fold at the top or side, depending on your desired layout.

2

STAP 2 VAN 7

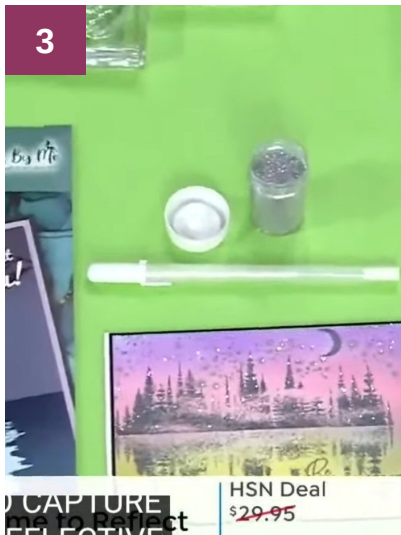

Ink up the reflection landscape stamp from the Time to Reflect kit. The stamp features a landscape design with the reflection already built into the image.

3

STAP 3 VAN 7

Stamp the silhouette image directly onto your white card panel in one smooth motion, pressing firmly to ensure a clear, complete impression. The stamped image shows a figure with their reflection and pine trees above.

STAP 4 VAN 7

If desired, add watercolour washes to the background cardstock to create depth and mood. Use the stamp designs as your guide for colour placement and blending.

STAP 5 VAN 7

Use the white gel pen from the kit to add highlights and accents to the reflection in the water and to the moon. This will create depth and enhance the reflective effect of the scene.

STAP 6 VAN 7

Add sparkle powder to areas where light would naturally reflect, such as on the moon and in the water reflections. This creates a shimmering effect that enhances the reflective quality of the scene.

TIPS UIT DE SHOW

- The reflection is built into the stamp, so you do not need to use the traditional technique of stamping and reflecting it down separately.
- You can use watercolours, pens, pencils or any medium you already have in your stash to add colour and detail.
- The QR code on the packaging links to video tutorials showing how to create backgrounds and achieve the best results.
