Embossed Donut Card with Alcohol Marker Shading

EEN PROJECT UIT ONZE LIVESHOW - THE THURSDAY DROP - 16 APRIL 2026

HET EINDRESULTAAT

OVER DIT PROJECT

Create a sophisticated card featuring an embossed donut character with tonal shading using alcohol markers and white highlights. The design is worked on grey card stock with a red hexagonal frame, combining black embossing powder with layered colouring to achieve a chalky, dimensional effect. The finished card includes the sentiment 'YOU ARE A-GLAZE-ING!' for a fun, pun-filled greeting.

STAP 3 VAN 10

STAP 4 VAN 10

Use two shades of grey alcohol markers to colour around the icing areas on your hexagonal piece, creating shadow and depth. Apply the darker shade first, then blend with a lighter grey to create a gradient effect.

STAP 5 VAN 10

Use a blender pen to go over the grey alcohol marker colouring on the donut. This will soften the transitions between shades and create lighter areas for a more natural, blended effect.

STAP 6 VAN 10

Use a red alcohol marker to colour the sprinkles on the donut stamp, adding colour accents to the design.

TIPS UIT DE SHOW

- Use Versafine black ink when embossing with black powder to avoid watermark effects from sticky ink pads.
- A white pencil is essential for adding highlights and bringing dimension to your coloured characters.
- You don't need specialist card stock for alcohol marker colouring unless you're aiming for a catalogue-style finish; regular card stock works fine.
