STAP VOOR STAP

STAP 1 VAN 6

Stamp your reflection tree design onto white embossed card using white pigment ink. Position the stamp carefully to create the mirror image effect with the tree and its reflection.

STAP 2 VAN 6

Apply white embossing powder over the stamped image. Heat set the embossing powder using a heat tool to create a raised, dimensional effect.

STAP 3 VAN 6

Apply bronze sparkle ink over the embossed design using an ink pad, dabbing it across the raised pattern. Heat set the ink again to fix the shimmer and enhance the metallic finish.

STAP 4 VAN 6

Run the card through an HD 3D embossing folder to create a decorative frame around the tree design. This will add texture and dimension to the white embossed background.

STAP 5 VAN 6

Position the stamped and embossed card within the frame, ensuring the embossed geometric pattern border is visible around the copper tree reflection image. The frame should enhance the focal point of the tree design.

STAP 6 VAN 6

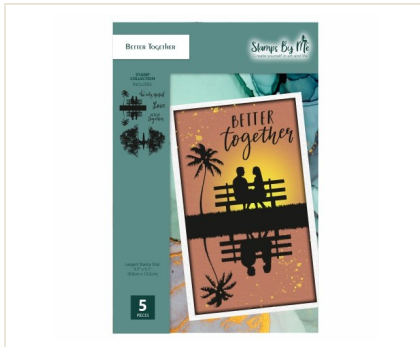

Mount the finished stamped and embossed piece onto a black card blank using adhesive. Ensure the framed design is centred on the card base.
