

Ombre Heart Stencil Card with Heat Embossing

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT SHOW 18TH MAR 23 - 18 MAART 2023

OVER DIT PROJECT

Create a stunning greeting card featuring a beautiful ombre heart in warm pink, orange and yellow tones. Using stencilling and ink blending techniques, you'll build up layers of colour before adding heat-embossed gold sparkle detail over tropical palm tree silhouettes for an artistic, contemporary finish.

STAP 2 VAN 10

Apply pink ink through the heart stencil using a large blending brush, working from the top of the heart downwards to create an ombré effect.

STAP 3 VAN 10

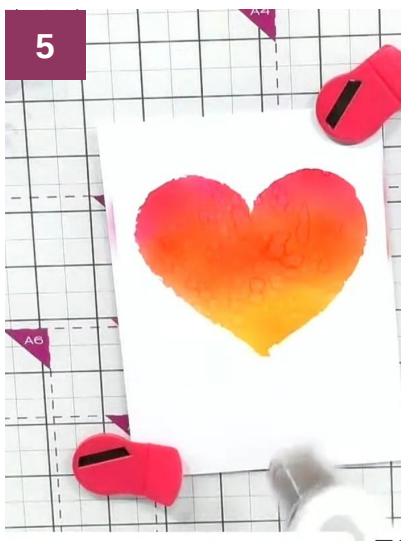

Blend orange ink into the middle section of the heart using a blending brush, overlapping with the pink to create an ombré effect.

STAP 4 VAN 10

Add yellow ink to the lower portion of the heart using the blending brush to complete the ombré effect, blending from orange to yellow at the bottom.

STAP 5 VAN 10

Carefully lift and remove the stencil from the card to reveal the ombré heart design. Allow the ink to dry slightly before proceeding to the next step.

[BEKIJK DEZE STAP - 52:00](#)

STAP 6 VAN 10

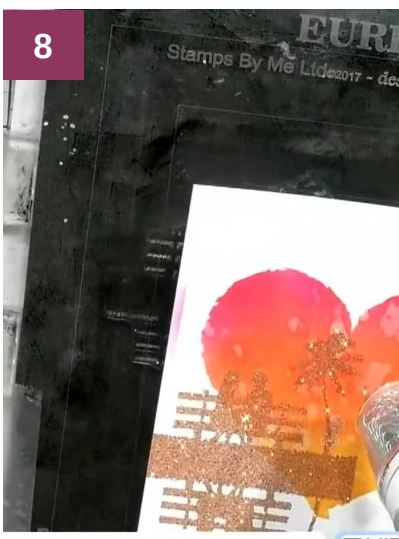

Apply anti-static powder over the heart area using a powder puff or soft cloth to remove any moisture from the inks. Gently pat the powder over the entire stencilled heart design.

[BEKIJK DEZE STAP - 52:30](#)

STAP 7 VAN 10

Stamp the lady and gentleman silhouette over the ombré heart using black heat-set ink. Position the stamps to create an elegant composition on the heart.

[BEKIJK DEZE STAP - 53:00](#)

STAP 8 VAN 10

Apply gold embossing powder over the stamped image whilst the ink is still wet. Tap off the excess powder back into the pot and use a brush to remove any stray powder from the white card.

[BEKIJK DEZE STAP - 54:00](#)

STAP 9 VAN 10

Heat set the embossing powder with a heat gun, moving it over the design until the powder melts and becomes shiny. The embossed areas will transform from matte to glossy as the heat activates them.

TIPS UIT DE SHOW

- The stylised stencils have a rough, rugged edge which works beautifully with reflective designs as reflections aren't sterile.
- Using anti-static powder helps remove moisture from wet inks before heat embossing.
- You can swap between artistic watercolour effects and bold sparkly embossed finishes using the same stamps and stencils.
