**STAP 4 VAN 8**

Rotate the watercolour card and stamp the floral image in different positions around the edges and corners using various colour combinations of red, orange and green inks to build up a full background design.

Allow the watercolour background to dry completely before proceeding to the next step.

[BEKIJK DEZE STAP - 30:00](#)**STAP 6 VAN 8**

Stamp the detail portion of the lamination stamp over the dried watercolour background using black ink. This adds definition and outlines to the floral design.

TIPS UIT DE SHOW

- Do not worry about the background being messy or imperfect; watercolour effects are not meant to be perfect.
- You can leave the outline detail off the background and just use the coloured portion for a softer look.
- Every person's card will be unique because the watercolour effect is different each time.
