

Five by Seven Infinity Shaker Card

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT SHOW 10TH MAR 23 - 10 MAART 2023

OVER DIT PROJECT

Create a beautiful shaker card featuring delicate white daisies with golden centres on a kraft background. This five by seven inch infinity shaker card uses pre-scored acetate windows with secure tape for professional results. The design includes dimensional flowers, a 'Happy Birthday' sentiment, and sequins that move freely within the shaker window.

STAP VOOR STAP

STAP 1 VAN 11

Remove the Infinity Shaker card window from its packet. Examine the scored lines and the pre-applied tape on the acetate window.

STAP 2 VAN 11

Burnish the score line firmly with a bone folder or similar tool to create a crisp fold. This will make it easier to wrap the card later.

STAP 3 VAN 11

Peel back the protective film from one side of the crystal clear acetate window to reveal the clear surface underneath.

STAP 4 VAN 11

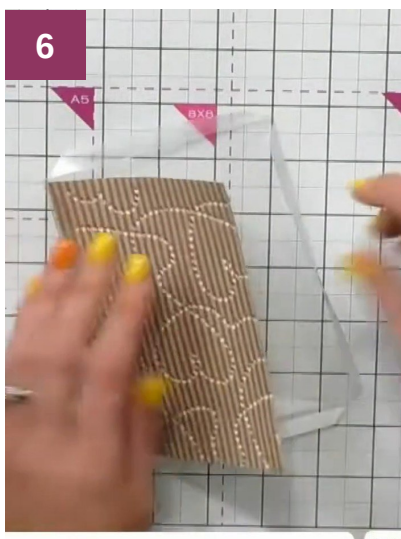

Cut a piece of white cardstock slightly smaller than the shaker window dimensions. This will fit inside the window frame to create the back panel of your shaker card.

[BEKIJK DEZE STAP - 16:45](#)

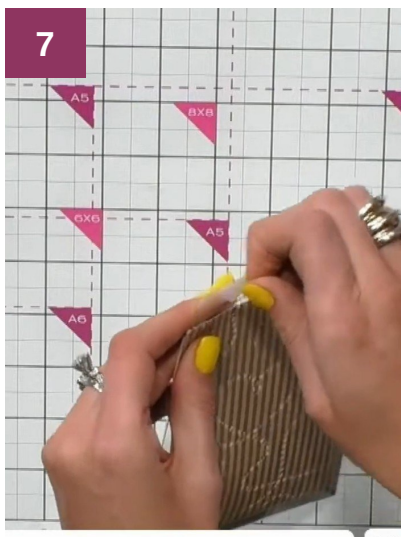

STAP 5 VAN 11

Place the textured cardstock inside the shaker window, positioning it face down. Smooth it into place to ensure it adheres properly to the adhesive.

[BEKIJK DEZE STAP - 17:00](#)

STAP 6 VAN 11

Peel off one side of the pre-applied tape from the acetate window and press it firmly onto your corrugated cardstock, ensuring it's lined up correctly and the tape adheres well.

[BEKIJK DEZE STAP - 17:15](#)

STAP 7 VAN 11

Leave one long side of the acetate window open as a pocket for adding embellishments later.

[BEKIJK DEZE STAP - 17:30](#)

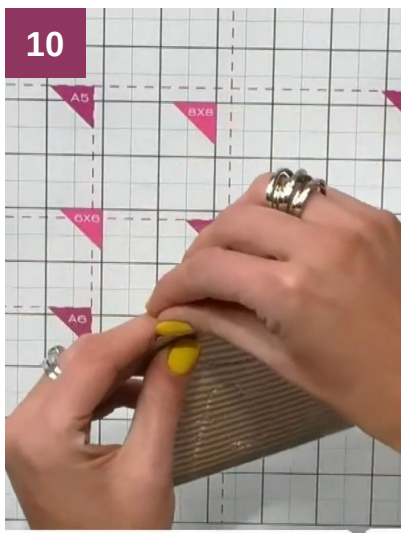

STAP 8 VAN 11

Pour your chosen shaker elements such as sequins, glitter or beads into the open acetate pocket of the card. Use yellow sequins or other coordinating embellishments to complement your design.

[BEKIJK DEZE STAP - 17:45](#)

STAP 9 VAN 11

Peel off the second side of the pre-applied tape from the acetate window. Fold the corrugated cardstock panel down to seal the shaker pocket completely.

[BEKIJK DEZE STAP - 18:00](#)

STAP 10 VAN 11

Fold all the teeth around the edges of the acetate window, working your way around carefully. Avoid pressing too hard to prevent clouding the acetate.

[BEKIJK DEZE STAP - 18:15](#)

STAP 11 VAN 11

Mount your completed shaker element onto a card base. The finished shaker card can be used as a standalone piece or attached to a larger card blank to create a beautiful greeting card.

TIPS UIT DE SHOW

- The pre-applied tape is tested to be secure, so make sure your cardstock is lined up correctly before pressing down.
- Leave the long side open for easier filling with embellishments.
- Work back and forth when folding the teeth to avoid cloud or haze effects on the acetate.
