

Three-Colour Stamped Card with Layered Technique

EEN PROJECT UIT ONZE LIVESHOW - FUNDRAISING EVENT - 8 MAART 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create a vibrant greeting card using a three-colour stamping technique with rainbow-blended ink pads. The design features layered floral and garden motifs stamped in overlapping colours to create depth and visual interest. This project demonstrates how strategic layering of just three colours can produce a rich, multi-dimensional effect on your handmade cards.

STAP VOOR STAP

1

STAP 1 VAN 7

Select three ink colours from your collection that will work well together for your stamped design. Consider choosing colours that complement each other, such as shades that blend harmoniously or create an attractive contrast.

2

STAP 2 VAN 7

Stamp your first colour onto white card stock. Use an ink pad in your chosen colour and press the stamp firmly onto the card to create a clear impression.

3

STAP 3 VAN 7

Apply your second colour ink over the first stamped image, allowing the colours to overlap and blend. Use a light touch to create a layered effect where the two colours interact.

4

STAP 4 VAN 7

Apply your third colour ink to the stamp and press onto the card, layering over the previous colours to create depth and complete the design.

5

STAP 5 VAN 7

Using one of your three chosen colours, add shadows or highlights to your stamped image to enhance dimension and depth. Apply the ink with a blending tool or sponge to create subtle shading effects.

6

STAP 6 VAN 7

Mount your stamped panel onto a card base using adhesive. Position the panel centrally on the card front and press down firmly to secure.

7

STAP 7 VAN 7

Add a sentiment or greeting from your stamp set to complete the card, using one of your three ink colours. Position the sentiment in a clear area of your design and stamp firmly for a crisp impression.

TIPS UIT DE SHOW

- When you overlay colours, they create the visual appearance of additional colours, so plan your layering carefully.
- Using foam tape under elements creates dimension and makes the card more visually interesting.
