EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT SHOW 25TH FEB 23 - 25 FEBRUARI 2023

OVER DIT PROJECT

Create a sophisticated perfume bottle card using layered stencilling and embossing techniques. Build depth with three coordinating ink colours in turquoise and teal tones, add stamped outlines, and finish with dimensional embossing for a luxurious textured effect. This elegant design features a decorative perfume bottle with metallic accents, perfect for special occasions.

STAP VOOR STAP

STAP 1 VAN 10

Place stencil number one on white cardstock and position it in the corner. Use the magnetic mat and pink magnetic tools to hold the stencil securely in place.

STAP 2 VAN 10

Apply teal ink through the first stencil using a sponge or blending tool. Work from light to medium tones, building up the colour gradually. Keep the stencil held firmly in place on the card.

STAP 3 VAN 10

Remove the first stencil carefully. Position stencil number two over the card, making sure you can see the number on the stencil to ensure it's not reversed.

STAP 4 VAN 10

Using the second stencil layer, apply a darker or heathery colour ink through the stencil onto the perfume bottle design. This adds depth and dimension to the bottle shape.

STAP 5 VAN 10

Position stencil number three over your design and apply additional colour using the ink pads to complete the layered shading effect on the perfume bottle.

STAP 6 VAN 10

Use a heat tool to dry the cardstock completely. Once dry, gently rub an anti-static bag over the surface to prevent embossing powder from sticking to unwanted areas.

STAP 7 VAN 10

Stamp the perfume bottle outline stamp onto the inked design, carefully lining it up with the stencilled turquoise flower and vase layers beneath.

STAP 8 VAN 10

Sprinkle copper embossing powder over the stamped perfume bottle outline. Tap off the excess powder and heat-set with an embossing heat gun until the powder melts and becomes shiny.

[BEKIJK DEZE STAP - 17:00](#)

9

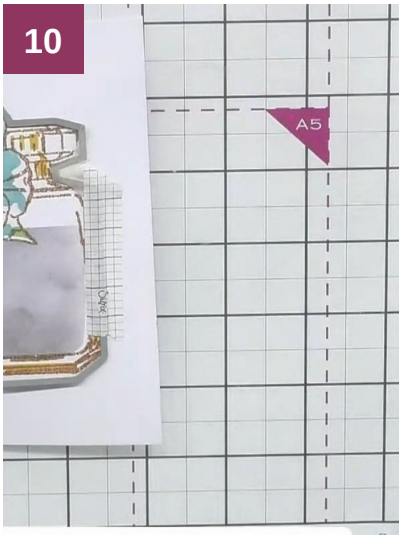

STAP 9 VAN 10

Run the die-cut perfume bottle through your die-cutting machine to cut out the shape cleanly from the white cardstock.

[BEKIJK DEZE STAP - 20:00](#)

10

STAP 10 VAN 10

Place the die-cut perfume bottle into the 3D embossing folder, carefully lining it up with the embossed detail. Run through your die-cutting machine to create the dimensional embossed effect on the bottle.

TIPS UIT DE SHOW

- Do not decant the QR code from the packet as it provides access to endless tutorial videos.
- Crafting should not be stressful; if you don't get the embossing folder alignment perfect, there is a one millimetre bleed allowance.
- You can use the stencils, stamp, die and embossing folder independently or all together depending on your desired effect.
