

Embossed Leaf Die-Cut Card with Glitter Bug Powder

EEN PROJECT UIT ONZE LIVESHOW - SATURDAY LIVE - 11 FEBRUARI 2023

OVER DIT PROJECT

Create a striking card featuring a die-cut leaf on gradient patterned paper, embossed with glitter bug powder to create a dimensional, sparkly effect. The leaf design is heat-embossed in rose gold tones against a beautiful purple-to-pink ombré background. This technique uses sticky ink pads and heat-setting to achieve a jewel-like, textured finish that catches the light beautifully.

STAP VOOR STAP

1

STAP 1 VAN 8

Die-cut your leaf shape from decorative patterned paper. Use golden metallic or mirror cardstock for the best embossed effect.

2

STAP 2 VAN 8

Apply glue to the back of the die-cut leaf using a precision glue applicator. Position the leaf centrally on your card base and press down to secure.

3

STAP 3 VAN 8

Place a block or weight on top of the stamped piece to keep it flat whilst the glue dries completely.

4

STAP 4 VAN 8

Apply a clear embossing ink pad directly onto the die-cut leaf surface, ensuring full coverage of the design.

5

STAP 5 VAN 8

Sprinkle Glitter Bug embossing powder generously over the stamped design, ensuring complete coverage of all the inked areas.

6

STAP 6 VAN 8

Tap off the excess glitter powder back into the container to avoid waste and keep your work area tidy.

7

STAP 7 VAN 8

Heat-set the embossing powder using a heat gun, moving it continuously over the design to avoid overheating. Keep the heat gun moving until the powder has melted and set completely.

[BEKIJK DEZE STAP - 19:15](#)

8

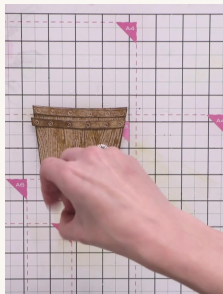

STAP 8 VAN 8

Allow the embossed and glittered card to cool completely before handling. The heat-embossed design needs time to set fully.

TIPS UIT DE SHOW

- Use a piece of cardstock underneath to catch any excess powder as you work.
- If your heat gun overheats, unplug it and let it cool before continuing.
- The glitter bug powder creates a chunky, dimensional effect that works well with metallic cardstock.
