STAP 1 VAN 12

Start with a white A5 piece of card as your base. Place it on your craft mat ready for stamping.

STAP 2 VAN 12

Swipe the pink ink pad directly onto the white card in loose, gentle strokes to create an ink wash effect.

STAP 3 VAN 12

Add Fandango ink to the white card, blending it with the previous colour to create a gradient effect. Work the ink across the surface to blend the colours together smoothly.

STAP 4 VAN 12

Apply ocean blue ink to the lower portion of the card, blending it into the pink gradient. Layer the colours loosely without worrying about precision, allowing them to merge naturally.

STAP 5 VAN 12

Apply more pink ink over the design to intensify and deepen the colour. Work the ink into the areas that need more vibrancy, building up the layers gradually.

STAP 6 VAN 12

Spray water from a spray bottle onto the inked background to create texture and water-resistant effects. The water will react with the ink to create interesting patterns.

9

STAP 9 VAN 12

Sprinkle ultra-thick clear embossing powder generously over the heat-embossed leaf design, ensuring all the inked areas are completely covered.

[BEKIJK DEZE STAP - 17:45](#)

10

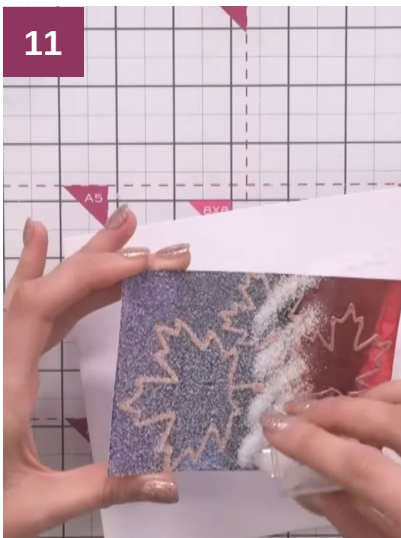

STAP 10 VAN 12

Heat-set the embossing powder with a heat gun, moving it evenly over the maple leaf design until the powder is fully melted and glossy.

[BEKIJK DEZE STAP - 24:00](#)

11

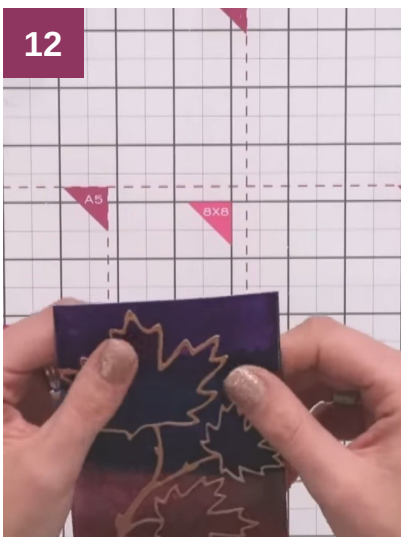

STAP 11 VAN 12

Apply a second coat of sticky ink over the embossed design.

Sprinkle ultra-thick clear embossing powder over the wet ink and heat emboss for extra depth and gloss.

[BEKIJK DEZE STAP - 25:15](#)

12

STAP 12 VAN 12

Heat-set the second coat of embossing powder using your heat tool, working evenly across the surface until it becomes hard and glass-like. The embossed leaf design should have a smooth, glossy finish when fully set.

TIPS UIT DE SHOW

- The water spray creates a resist effect where the embossing powder doesn't adhere, giving an interesting moon-like appearance.
- Ultra-thick embossing powder uses more product than regular powder, so be generous with application.
- A second coat of embossing powder creates an even glossier, more durable finish.
