

Zwevende acetaatkaart met gestempeld inlegvel

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT SHOW 8TH FEB - 8 FEBRUARI 2023

OVER DIT PROJECT

Create a modern floating card using clear acetate as the front panel, with a vibrant watercolour-effect insert suspended inside and a stamped sentiment on the reverse. This contemporary design features bold yellow, orange and pink tones with delicate stamped details, giving your card a professional, gallery-like appearance. The main techniques include masking fluid application, watercolour blending, stamping and acetate construction.

STAP 6 VAN 7

Adhere the white stamped panel to the front of the acetate card using adhesive tape or glue, positioning it centrally to create the floating effect with the coloured background visible through the acetate.

STAP 7 VAN 7

Glue a backing card to the inside back of the acetate to hide the tape and provide a surface for your message. This completes your floating acetate card with stamped insert.

TIPS UIT DE SHOW

- The acetate scores without a halo, giving a professional finish.
- The floating effect is created by the contrast between the clear acetate and the coloured panels inside.
- Hide any tape or adhesive marks by placing a backing card on the inside back.
