

Kaart met aquarelbladeren en wit halo-effect

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT SHOW 24TH JAN - 24 JANUARI 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create a striking card featuring layered leaf stamps on black card stock with a white halo effect. This technique uses opaque white ink as an underlay, with vibrant coloured inks stamped on top to create a dimensional look with a glowing white border around each leaf. The finished piece showcases autumn leaves in shades of blue, yellow, and silver against a dramatic black background.

TIPS UIT DE SHOW

- You can go over white stamped areas with pencils once dry to add shading and detail.
- The white ink stays wet longer, allowing you to work with heat embossing if preferred.
- Don't worry about perfect alignment when stamping the detail over the white base—slight offset creates the halo effect.
