

Aquarelachtergrond met reactieve inktkussens

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT SHOW 12TH JAN - 10 JANUARI 2023

HET EINDRESULTAAT

OVER DIT PROJECT

Create stunning watercolour backgrounds using water-reactive ink pads in vibrant blues, pinks, coral, and lime green. This technique demonstrates how spraying water onto stamped patterns creates beautiful organic textures and flowing colour gradients. The result is a collection of artistic strips with unique watercolour effects, perfect for card making and mixed media projects.

STAP VOOR STAP

1

STAP 1 VAN 6

Apply blue ink directly onto white card stock using light tapping motions with the ink pad. Build up the colour by applying multiple layers in different areas to create variation in tone and texture.

STAP 2 VAN 6

Allow the ink to dry slightly so the colours begin to lighten naturally. The blue, brown, pink and black ink strokes will fade as they dry on the white card.

STAP 3 VAN 6

Spray water generously onto your hand to create a large puddle. Get plenty of water on so you'll see the texture you're wanting.

STAP 4 VAN 6

Apply water to the inked card using a water-soaked hand or spray bottle to activate the reactive ink. Create a puddle of water on the surface to allow the colours to blend and react together.

[BEKIJK DEZE STAP - 38:30](#)

STAP 5 VAN 6

Wet the stamped areas with plenty of water using a wet wipe or damp cloth. Watch as the colours pull out to lighter shades, creating texture and movement across the card.

STAP 6 VAN 6

Gently dab the watercoloured paper with tissue to remove excess water and help blend the colours together for a smooth finish.

TIPS UIT DE SHOW

- The ink pads are water reactive like no other and create beautiful textured effects when water is applied.
- A little ink goes a long way with these pads, so use light taps rather than heavy pressure.
