

Christmas Bauble Bubble Card with Watercoloured Trees and Owl

EEN PROJECT UIT ONZE LIVESHOW - MONDAY MADNESS - 5 DECEMBER 2022

OVER DIT PROJECT

Create a stunning Christmas bubble card featuring a dimensional circular bauble design that pops up when opened. The card showcases a beautiful watercoloured winter sky with delicate trees and an adorable owl character holding a festive hot drink. Using watercolour painting, die-cutting and layering techniques, you'll craft an impressive 3D card with a red polka dot bauble frame and 'Merry Christmas' sentiment.

STAP VOOR STAP

1

STAP 1 VAN 16

Take a 6x6 inch card blank and position a circular die over the centre crease, overlapping slightly so the card will fold and operate as a bubble mechanism.

2

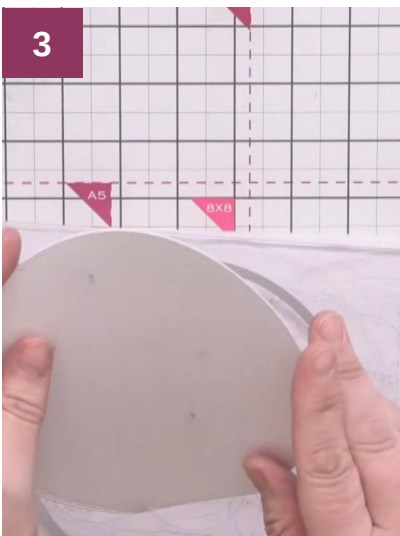

STAP 2 VAN 16

Use a portable die-cutting machine to cut out the circular shape through both layers of the card blank. Position the die centrally on the folded card and run it through the machine to create the bubble card mechanism.

3

STAP 3 VAN 16

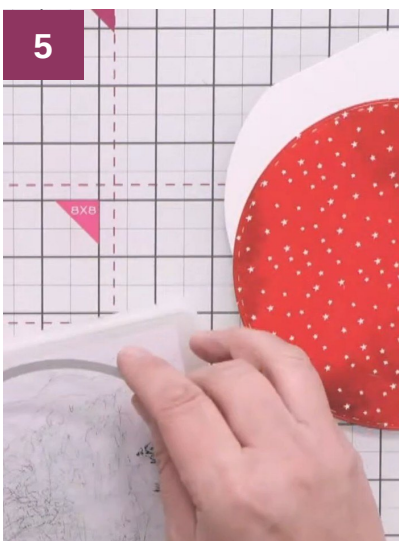

Trim the back edge of the circular card flat to create a stable resting base so the bubble won't rock when standing.

[BEKIJK DEZE STAP - 4:30](#)

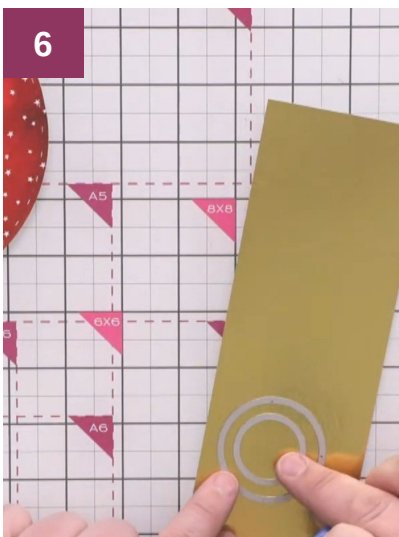

STAP 4 VAN 16

Cut a circular backing piece from festive patterned card (red with gold stars or similar) to match the size of your bubble circle.

[BEKIJK DEZE STAP - 5:00](#)

STAP 5 VAN 16

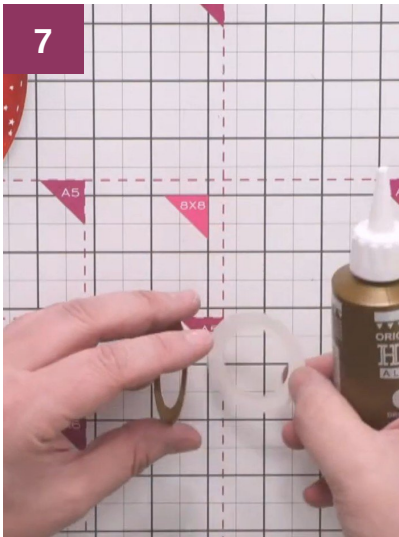

Adhere the red patterned paper circle to the inside of the bubble card base. Leave the top corner unglued as you will need to insert the hoop mechanism there later.

[BEKIJK DEZE STAP - 5:45](#)

STAP 6 VAN 16

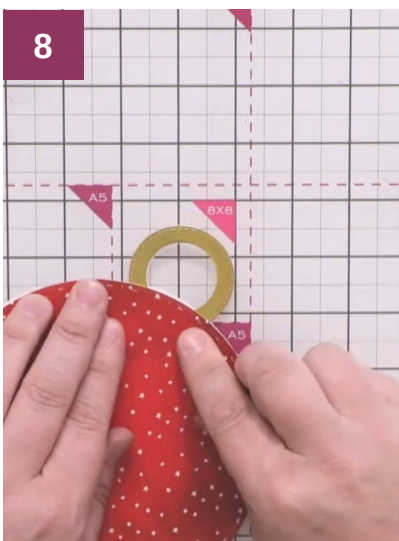

Nest two circular dies (one small and one larger) on gold card to create a donut-shaped hoop. Cut two of these gold hoops for the bauble tops.

[BEKIJK DEZE STAP - 7:30](#)

**STAP 7 VAN 16**

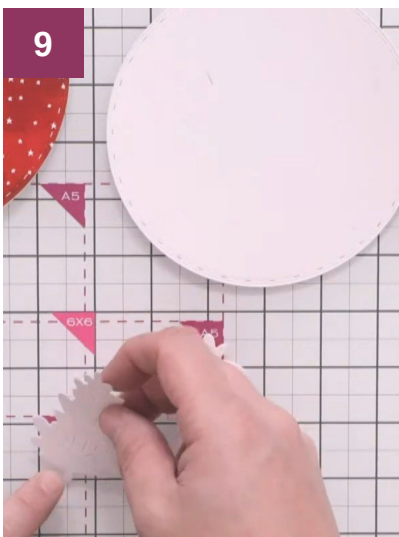

Glue the two gold rings back-to-back to create a finished hoop with no visible joins.

BEKIJK DEZE STAP - 9:45

**STAP 8 VAN 16**

Glue the gold hoop to the top of the red bauble circle to create a hanging loop for the bubble card.

BEKIJK DEZE STAP - 10:45

**STAP 9 VAN 16**

Cut a slightly smaller circle from white card to fit within the red dotted bauble backing, creating a border around the edge for your design.

STAP 10 VAN 16

Cut two small tree shapes from white card using the terrific trees die.

BEKIJK DEZE STAP - 12:15

STAP 11 VAN 16

Gently tease up the lift-up panels on the tree pieces to add dimension and texture to the trees.

STAP 12 VAN 16

Apply water across the top portion of the white circular background using a brush. Add blue watercolour pigment to create a sky wash effect.

BEKIJK DEZE STAP - 13:45

13

STAP 13 VAN 16

Apply green watercolour washes to the tree pieces using a paintbrush, varying the shades to create depth and dimension. Work on one tree at a time, allowing the colours to blend naturally on the white die-cut pieces.

[BEKIJK DEZE STAP - 15:00](#)

14

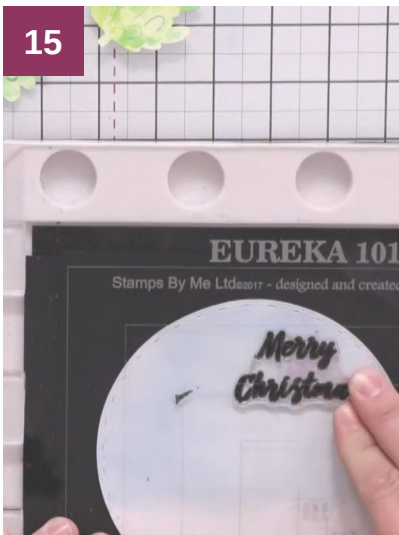

STAP 14 VAN 16

Press the wet watercoloured pieces with paper towel to remove excess water. Dry thoroughly with a heat gun.

[BEKIJK DEZE STAP - 16:30](#)

15

STAP 15 VAN 16

Stamp a 'Merry Christmas' sentiment onto the white circular background using black ink, positioning it in the top corner of the circle.

[BEKIJK DEZE STAP - 17:45](#)

16

STAP 16 VAN 16

Glue the watercoloured background piece onto the bubble card base, aligning it with the red patterned circle so the 'Merry Christmas' sentiment is centred on the bauble.

TIPS UIT DE SHOW

- Trim the back of the bubble card flat to create a stable base so it won't rock when standing.
- Use a portable die-cutting machine for shaped cards as it's quick and effective.
- Watercolour dries back lighter than it appears wet, so don't worry about going too heavy at first.
