Botanical Essence Layered Flower Card with Stamped Background

EEN PROJECT UIT ONZE LIVESHOW - HOBBYMAKER TV - 6 MAART 2026

HET EINDRESULTAAT

OVER DIT PROJECT

Create a stunning layered flower card featuring a beautiful dimensional bloom in coral and peach tones. This elegant design combines stamped botanical backgrounds with die-cut flower layers built up for a 3D effect, finished with a 'Thankful For You' sentiment. The card showcases artistic stamping and paper layering techniques to create a gallery-worthy handmade greeting.

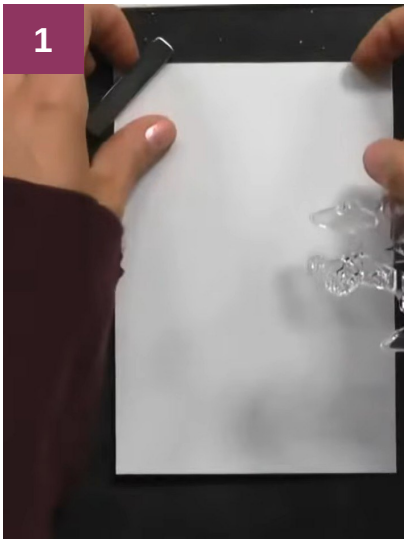
STAP VOOR STAP



STAP 1 VAN 7

Take a piece of white card stock and position the abstract background stamp from the Botanical Essence bundle onto it. Ink the stamp with a light grey ink pad and press firmly onto the card to create a subtle stamped background pattern.

STAP 2 VAN 7

Select coordinating papers from the Botanical Essence collection. Cut out three matching flower designs in different sizes, with the largest being the full flower and progressively smaller versions with petals removed to create a layered effect.

STAP 3 VAN 7

Layer the three flower pieces on top of each other, starting with the largest at the base, to create dimension and a cascading effect. Position each layer slightly offset to show the petals beneath.

STAP 4 VAN 7

Gently manipulate the layered flower by pinching the petals and lifting the corners to add natural shaping and movement to the blooms. This creates dimension and a more realistic appearance.

STAP 5 VAN 7

Stamp the 'Thankful For You' sentiment onto a white label or rectangle panel using black ink, positioning it at the bottom right of your card design.

BEKIJK DEZE STAP - 54:00

STAP 6 VAN 7

Adhere the completed layered flowers to your card front using foam pads or adhesive. Position them as the focal point of your design, arranging them to create an attractive composition.

BEKIJK DEZE STAP - 54:30

STAP 7 VAN 7

Add stamped background detail to the back or side of your card. This creates visual interest when the card is viewed from different angles. Position the decorative floral element as desired.

TIPS UIT DE SHOW

- You can add ink blending to the flower layers to give them texture and depth before assembling them.
- The papers are so good quality that simply adding heat and manipulating them will create natural rotation and movement in the petals.
- Don't worry about making it perfect—the artistic element comes from your own unique style and colour choices.
