

Acetaatkaart met venster en patroonpapier

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT - 18 NOVEMBER 2022

HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant greeting card featuring a clear acetate front panel with a decorative window that reveals beautiful patterned paper beneath. The design showcases pink floral imagery with sentiment labels, finished with an olive green belly band and dimensional fussy-cut flower embellishments. This technique gives your handmade cards a professional, shop-bought quality whilst allowing you to personalise the design with your choice of papers and sentiments.

STAP VOOR STAP

STAP 1 VAN 9

Remove the protective film from the acetate sheet by carefully peeling it away. The acetate is construction weight and suitable for card making projects.

STAP 2 VAN 9

Using a scoring tool and ruler, score lines onto the acetate sheet. Apply gentle, even pressure to create clean fold lines without causing cloudiness on the acetate surface.

STAP 3 VAN 9

Fussy-cut a large decorative flower from the patterned paper collection. Cut carefully around the intricate petals and details to create a beautiful embellishment for your card.

TIPS UIT DE SHOW

- The construction-weight acetate scores beautifully without creating white cloudy lines like lower-quality acetate.
- Use clear tape so it remains invisible through the transparent acetate.
- Save offcuts from card-making to create coordinating belly bands, reducing waste.
