

Colourful Hanging Calendar with Stamped Icons

EEN PROJECT UIT ONZE LIVESHOW - MONDAY MADNESS - 14 NOVEMBER 2022

OVER DIT PROJECT

Make a cheerful hanging calendar decorated with bright stamped gaming motifs and speech bubbles on a dark textured background. Using vibrant primary colours and simple stamping techniques, you'll create a playful design featuring retro game consoles and fun sentiments. This project combines stamping, heat embossing, and basic assembly to produce a practical and eye-catching calendar for the new year.

STAP VOOR STAP

STAP 1 VAN 8

Prepare a chunky board base by layering card together to achieve the desired thickness. Edge the board with black ink to cover any grey edges and create a neat finish.

2

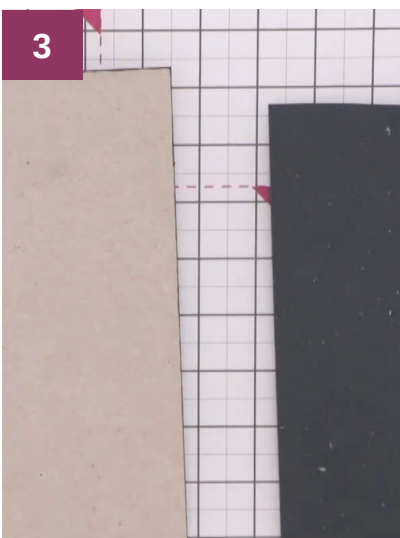

STAP 2 VAN 8

Apply glue to the kraft board using a brush, spreading it thinly and evenly to avoid creating ripples in the card when you adhere it.

STAP 4 VAN 8

Run your finger down each edge of the black card to create a crease line showing where the card underneath sits. This will help you see where to trim.

STAP 5 VAN 8

Stamp sentiment images such as 'have a nice day', 'smile', 'OMG', or 'hello' onto the bright pink paper using black ink. Use the stamp positioning tool to ensure accurate placement of each sentiment.

STAP 6 VAN 8

Carefully hand-cut around each stamped image on the pink card, leaving a slight pink border around each design. Don't worry about achieving perfect accuracy - a relaxed, hand-cut look works well for this project.

STAP 7 VAN 8

Arrange the colourful stamped ticket pieces onto the dark grey background card. Position them in a scattered, overlapping arrangement, allowing some pieces to extend beyond the edges of the card for a playful, dynamic effect.

STAP 8 VAN 8

Punch two holes at the top of the finished panel and thread ribbon through from the back, tying a knot on the reverse for a neat finish.

TIPS UIT DE SHOW

- You can use scraps of patterned paper and card from your stash rather than buying new materials.
- Don't worry if the stamped pieces fall off the edge—it gives a nice cartoon-style effect.
- You could adapt this design as a notebook cover or blank notepad by adding paper and a pen instead of a calendar.
