

Layered Decoupage Sentiment Card with Fussy-Cut Elements

EEN PROJECT UIT ONZE LIVESHOW - FRIDAY LAUNCH - 11 NOVEMBER 2022

OVER DIT PROJECT

Create a charming white top-folding note card featuring a beautiful floral design with an inspirational sentiment. Using fussy-cut paper elements from the Funky Fossil collection, you'll layer three decorative pieces with foam pads to create a dimensional 'skirt' effect. The card is finished with a purple stamped sentiment reading 'Don't follow your dreams CATCH them' and subtle teal spray accents for added interest.

4

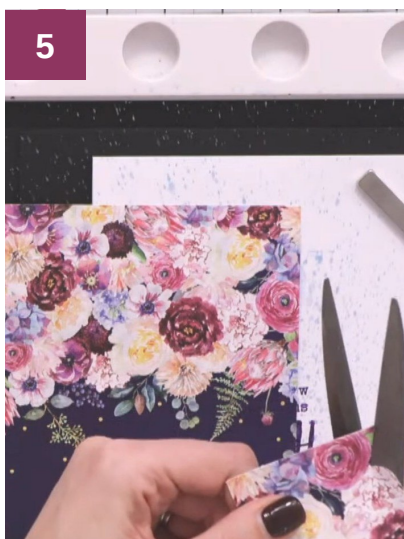

STAP 4 VAN 10

Fussy cut around the base of the first decorative paper element using scissors. Keep some of the navy background attached to the floral motif if desired for added depth.

5

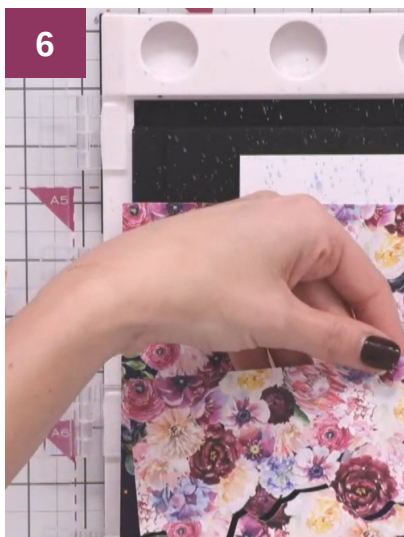

STAP 5 VAN 10

Continue fussy cutting the second floral paper element, cutting further into the design where the flower pattern transitions from light to dark areas.

6

STAP 6 VAN 10

Fussy cut the third floral paper element, cutting carefully around the flowers up to approximately the middle of the design. This will create a layered effect when positioned on the card.

STAP 7 VAN 10

Create foam pads by stacking pre-cut card offcuts together. Use small pieces of leftover card to build up layers that will add dimension to your decoupage elements.

[BEKIJK DEZE STAP - 31:45](#)

STAP 8 VAN 10

Take your first fussy-cut floral element and adhere it flat to the top of the card using wet glue or a glue pen, positioning it over the sentiment area.

[BEKIJK DEZE STAP - 32:30](#)

STAP 9 VAN 10

Attach the second decoupage element using foam pads, but leave the bottom edge free to create a skirt effect that lifts away from the card.

10

STAP 10 VAN 10

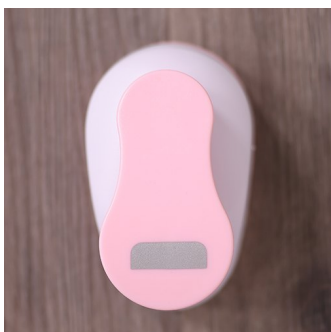

Layer the third floral element on top using foam pads, positioning it to create additional dimension and depth to the card design.

TIPS UIT DE SHOW

- You can include some of the navy background when fussy cutting if you like the colour.
- Leaving the bottom edges of layered elements free creates a lovely skirt effect.
- Use offcuts from your scrap box to create foam pads if you don't have commercial ones available.
