

Sun-Kissed Face with Red Lips Coloured with Alcohol Markers

EEN PROJECT UIT ONZE LIVESHOW - BRAND SHOWCASE - 4 NOVEMBER 2022

HET EINDRESULTAAT

OVER DIT PROJECT

Create a stunning sun-kissed portrait featuring a glamorous face with dimensional red lips, coloured with alcohol markers. This project uses a three-shade blending technique to build realistic depth and warmth, bringing the stamped image to life with vibrant golden tones and bold crimson lips. The finished piece showcases how layering colours can transform a simple line drawing into a striking, lifelike work of art.

STAP VOOR STAP

1

STAP 1 VAN 10

Stamp your chosen face image onto smooth white cardstock using black Memento or Versafine Clear ink. Position the stamp on the magnetic glass mat to ensure a clean, crisp impression.

2

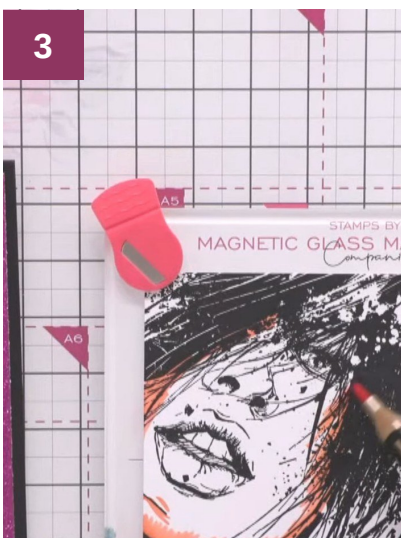

STAP 2 VAN 10

Test your alcohol marker colours on a scrap piece of the same cardstock you'll be using for your main image to check how the colours appear and blend on that particular surface.

3

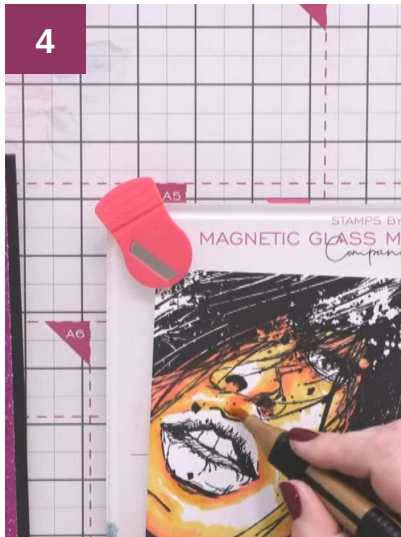

STAP 3 VAN 10

Using the lightest shade of orange (YR24 Marigold), apply colour to the outer edges of the face with broad strokes, working inward. Build up the colour gradually on the cheeks and around the facial features.

4

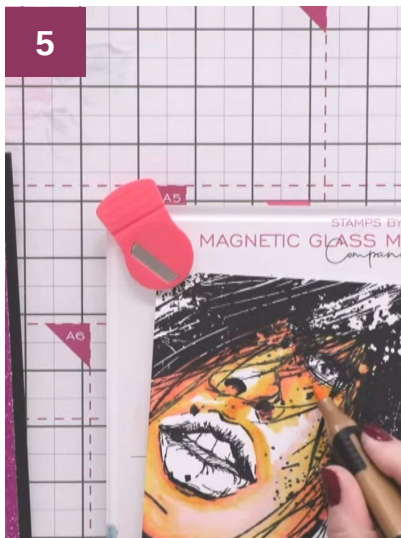

STAP 4 VAN 10

Layer a medium flesh tone (R139 Flesh) over the orange base colour. Blend the medium shade into the orange by working from the outside edges inward, creating a smooth transition between the colours.

[BEKIJK DEZE STAP - 11:45](#)

5

STAP 5 VAN 10

Use a darker alcohol marker to add shading around the lips and along the jawline. Build up the colour gradually to create depth and dimension in the face.

[BEKIJK DEZE STAP - 12:30](#)

6

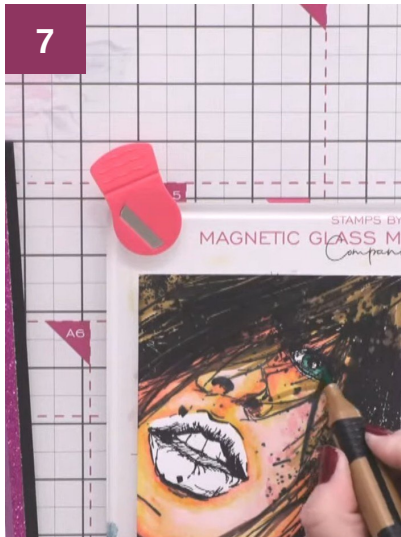

STAP 6 VAN 10

Allow the alcohol from the markers to evaporate completely before continuing. Walk away from your work for a few moments to let the colours dry and settle to their final shade.

[BEKIJK DEZE STAP - 13:00](#)

7

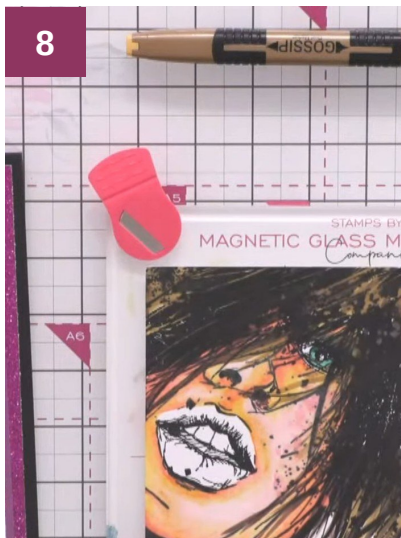

STAP 7 VAN 10

Colour the eyeshadow with a green alcohol marker, applying the darker shade at the top of the eyelid and a lighter shade at the bottom. Build up the colour gradually for depth.

[BEKIJK DEZE STAP - 17:30](#)

8

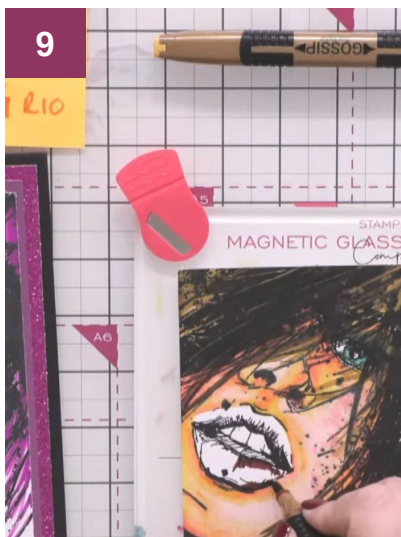

STAP 8 VAN 10

Apply the first lip colour (R4) around the outer edge of the lips, working from the outside inward. Use the alcohol marker to build up colour gradually, starting at the lip line and blending towards the centre.

[BEKIJK DEZE STAP - 18:00](#)

9

STAP 9 VAN 10

Apply a second layer of red alcohol marker (R1) over the lips, keeping the line thin and allowing it to blend naturally with the surrounding skin tone.

[BEKIJK DEZE STAP - 18:45](#)

STAP 10 VAN 10

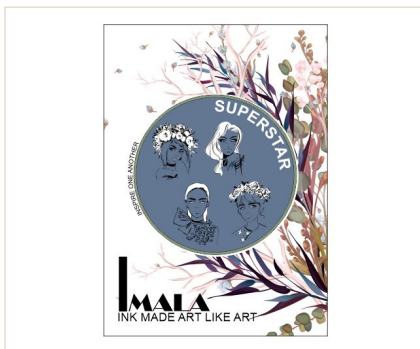

Add a third, deeper shade to the lips to create dimension and depth. Draw a thin line around the lip area to define the edges. Allow the piece to dry completely.

TIPS UIT DE SHOW

- Always test your colours on the same cardstock you will be using, as different papers absorb ink differently and will show different tones.
- Use the brush nib for larger areas and the bullet nib for finer details and blending.
- Do not keep working the colour; allow the alcohol to evaporate between layers so the true colour can settle and blend properly.
