

Stamped and Layered Floral Card with Multiple Die-Cut Elements

EEN PROJECT UIT ONZE LIVESHOW - BRAND SHOWCASE - 4 NOVEMBER 2022

OVER DIT PROJECT

Make a delightful floral card with a retro mid-century aesthetic, combining stamped and die-cut flower elements in cheerful shades of pink, coral, yellow, and blue. Using coordinating stamps and dies, you'll layer solid shapes, outlines, and textured details to create dimensional blooms that can be arranged in various ways for a unique handmade card.

Stamp the outline version of the flower onto different coloured cardstock pieces. Use yellow, orange, pink and blue cardstock to create a layered effect. Allow the stamped images to dry completely.

TIPS UIT DE SHOW

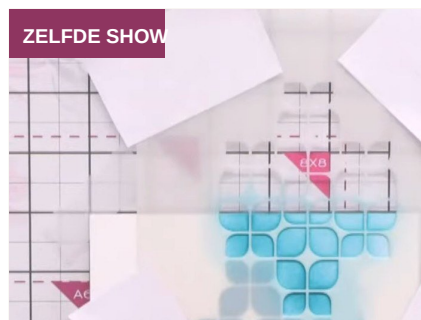

- Having multiple blocks or stamps of the same design in different styles (solid, outline, textured) allows you to build and layer flowers in many different ways.
- Interchanging and rotating the layered elements creates completely different looks from the same stamps and dies.
