

Guillotine-Cut Panel Card with Layered Design

EEN PROJECT UIT ONZE LIVESHOW - CREATE TOGETHER CLUB - 2 NOVEMBER 2022

OVER DIT PROJECT

Create a stunning layered panel card featuring beautiful floral designs in soft pinks and peaches. Using a guillotine cutter, slice your stamped and coloured panels into strips of varying widths to create an eye-catching dimensional effect. The finished card showcases geometric triangular frames filled with delicate roses and foliage, with the cut strips revealing glimpses of different coloured layers beneath.

STAP 3 VAN 6

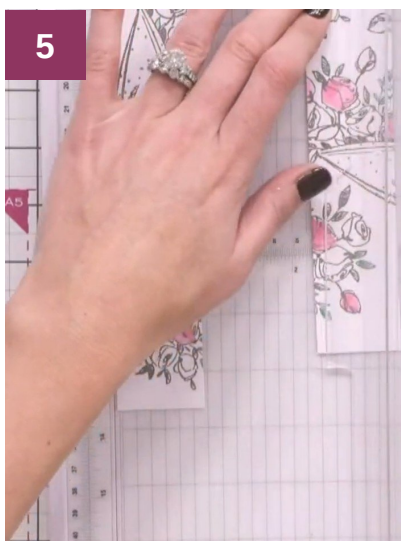

Cut another strip from the patterned paper that is one and a half inches wide. This creates a thicker section for your card design.

STAP 4 VAN 6

Cut a final thin strip from the remaining cardstock, trimming from corner to corner where it's thicker on one side.

STAP 5 VAN 6

Repeat the same cutting pattern on your second coloured floral card, ensuring you cut the strips in the same widths and positions as the first card.

STAP 6 VAN 6

You now have matching sets of strips from both cards—one thicker section and two thinner sections from each. The strips feature the floral umbrella design with pink and peach roses.

TIPS UIT DE SHOW

- Make sure you replicate whatever cuts you make on the first card on the second card so the patterns match.
- Cutting at one and a half inch intervals creates a nice balance between thicker and thinner sections.
