

Alien Invasion Skyline Card with Embossed Characters

EEN PROJECT UIT ONZE LIVESHOW - MONDAY MADNESS - 31 OKTOBER 2022

OVER DIT PROJECT

Create a charming layered card featuring stamped alien characters arranged in a descending pattern across the top. The design includes a warm gradient sky background in sunrise tones, with a black silhouette skyline of apartment buildings complete with window details. The sentiment is cleverly integrated as one of the tower blocks, making this a fun and creative greeting card perfect for gaming enthusiasts or sci-fi fans.

STAP VOOR STAP

STAP 1 VAN 15

Cut a piece of card to 7¼ by 3½ inches to use as your base. Use the grid on your cutting mat to measure and cut accurately.

STAP 2 VAN 15

Use the grid system on your clear stamp block to position and align the alien character stamps where you want them on your card. The grid helps ensure accurate placement before stamping.

STAP 3 VAN 15

Rub an anti-static pad over the stamp to ensure crisp detail. Ink up the alien stamp block with black ink.

STAP 4 VAN 15

Press down firmly to stamp the aliens across the top of the card, re-inking as needed. Add a few random aliens descending down the page as if attacking.

5

STAP 5 VAN 15

While the ink is still wet, generously sprinkle black embossing powder over the stamped alien images. Tap off the excess powder back into the pot.

[BEKIJK DEZE STAP - 8:00](#)

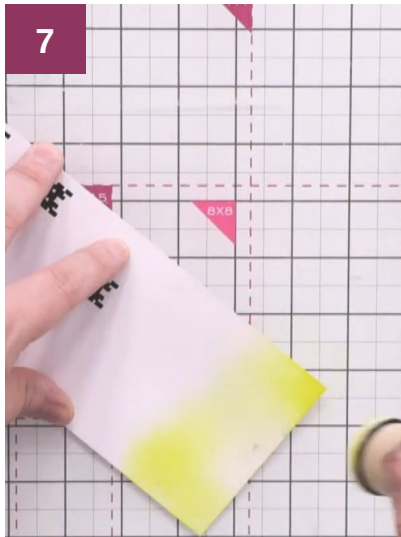

6

STAP 6 VAN 15

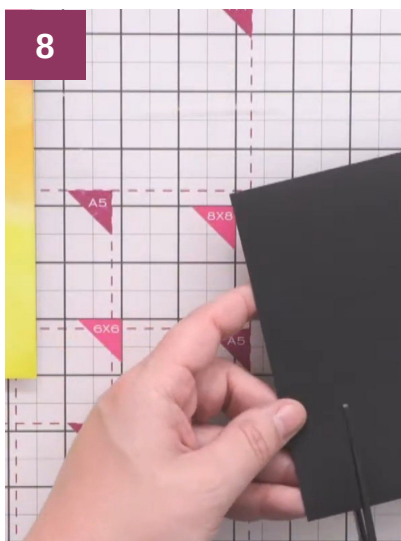

Heat the embossing powder with a heat gun, moving it over the stamped images until the powder melts and becomes shiny and raised.

[BEKIJK DEZE STAP - 9:00](#)

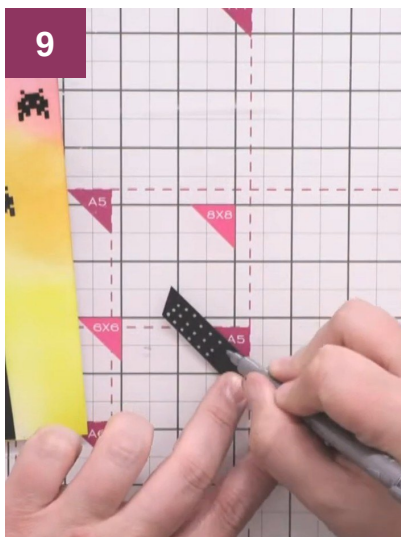

STAP 7 VAN 15

Blend ink colours from light to dark across the white background panel. Start with yellow at the bottom, then orange, rosy pink, and purple at the top to create a sunrise gradient effect.

[BEKIJK DEZE STAP - 10:00](#)

STAP 8 VAN 15

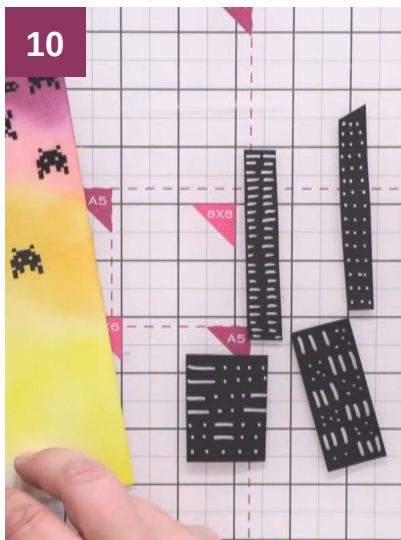

Cut random-height strips from black card to create apartment building silhouettes. Make some strips taller than others to add dimension and variety to your skyline.

[BEKIJK DEZE STAP - 14:15](#)

STAP 9 VAN 15

Use a silver pen to draw window patterns on each black building strip. Vary the designs with dots, dashes, lines and L-shapes so each building looks different.

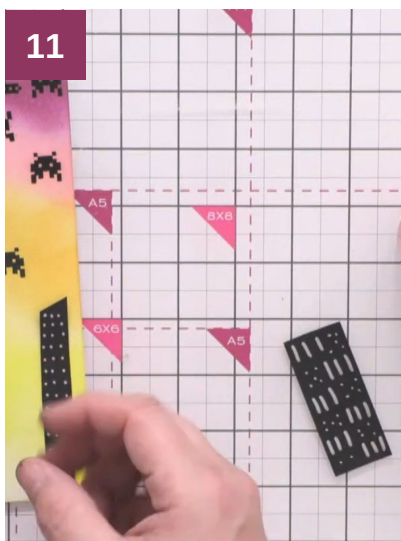

[BEKIJK DEZE STAP - 16:15](#)

STAP 10 VAN 15

Glue the tallest building strips flat onto the card first as your back layer. Position them on the yellow and pink gradient background, ensuring you don't cover up the coloured area. These will form the furthest layer of your cityscape.

BEKIJK DEZE STAP - 18:45

STAP 11 VAN 15

Add foam pads to the smaller building strips and layer them in front of the larger buildings to create depth, overlapping them at different heights.

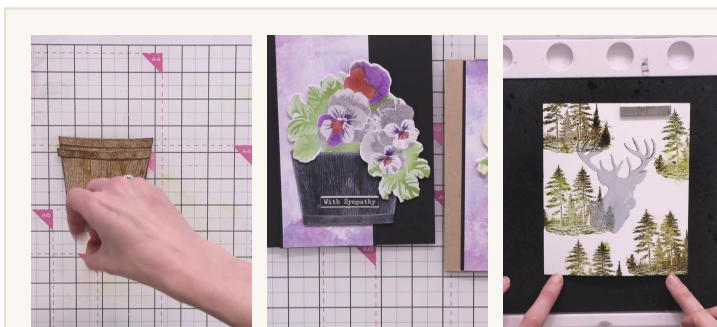

BEKIJK DEZE STAP - 19:45

STAP 12 VAN 15

Stamp a long, thin sentiment such as 'Congratulations' onto black card using black ink. Apply silver embossing powder over the wet ink and heat to emboss.

STAP 13 VAN 15

Trim the embossed 'CONGRATULATIONS' sentiment and mount it onto mirror board to add shine. Position the mounted sentiment in the centre gap between the buildings on your card.

[BEKIJK DEZE STAP - 23:45](#)

14

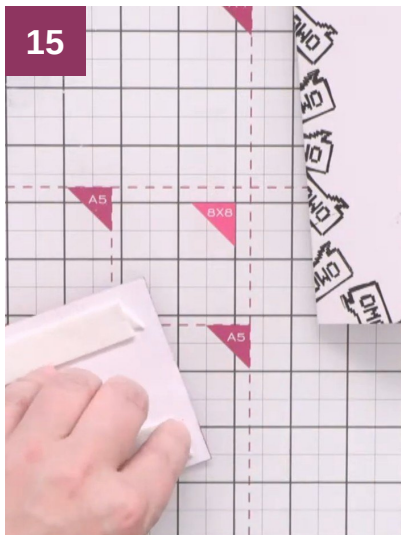

STAP 14 VAN 15

Stamp a small word stamp (such as 'OMG') around all four edges of the white card blank using black ink to break up the white border and add interest.

[BEKIJK DEZE STAP - 25:30](#)

15

STAP 15 VAN 15

Mount the finished card panel onto the decorated card blank using foam tape for height and dimension. This will create a raised, three-dimensional effect for your alien invasion skyline.

TIPS UIT DE SHOW

- Work lighter to darker when blending inks so colours don't contaminate your tools.
- Don't worry about window designs being perfectly even—vary them to avoid a uniform look.
- You can use coloured embossing powders or even colour the aliens in different ways if you prefer.
