

Aquarelkaart met iris en lamination stamps

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT - 12 OKTOBER 2022

OVER DIT PROJECT

Create a stunning watercolour iris card featuring vibrant orange, pink and purple petals with green foliage. This beautiful floral design is achieved using the two-part lamination stamp technique, which layers stamped images to create a realistic painted effect. The result is a professional-looking watercolour card that requires no artistic skills.

STAP 2 VAN 9

Add a touch of orange ink to the stamp pad to create colour variation. Blend the orange ink into the existing colours on the pad to achieve a varied, natural effect.

STAP 3 VAN 9

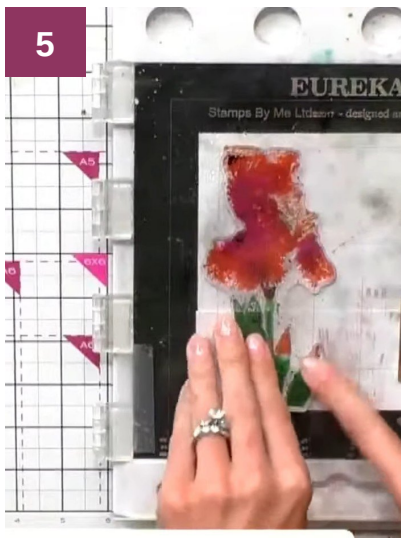

Spray the inked stamp with water to activate and blend the colours. The water will help the ink spread and create a watercolour effect on the stamp.

STAP 4 VAN 9

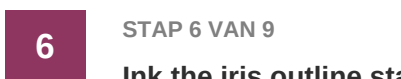

Take your stamped watercolour panel and position it onto your white card base. Press down firmly to adhere the panel in place, ensuring it is centred on the black matted frame.

STAP 5 VAN 9

Allow the stamped image to dry slightly whilst the ink is still wet. This encourages the watercolour to bleed and create a beautiful soft effect on the card.

STAP 6 VAN 9

Ink the iris outline stamp with black ink using your stamping platform. This will create the detailed line work over your watercoloured base layer.

STAP 7 VAN 9

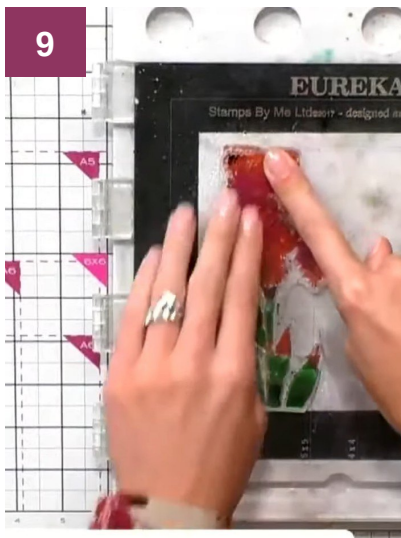

Loosely align and stamp the second layer of the iris over the first stamped image, allowing the colours to overlap naturally rather than matching perfectly. Give the stamp a good press to ensure full ink coverage.

[BEKIJK DEZE STAP - 16:30](#)

STAP 8 VAN 9

Choose your sentiment stamp from the Celebrate Bundle and stamp it in black ink onto the white card base, positioning it above or through the watercolour iris design.

STAP 9 VAN 9

Layer your completed iris design onto coordinating cardstock to add dimension. Use the Eureka 101 mat to help position and smooth down the layers. Mount the finished piece onto your card base to complete your watercolour iris card.

TIPS UIT DE SHOW

- Don't try to match the two stamp layers perfectly—the loose overlay creates the authentic watercolour effect.
- You can use just the solid portion on its own if you prefer, without adding the second layer.
- Choose colours that make you happy; there are no rules with this technique.
