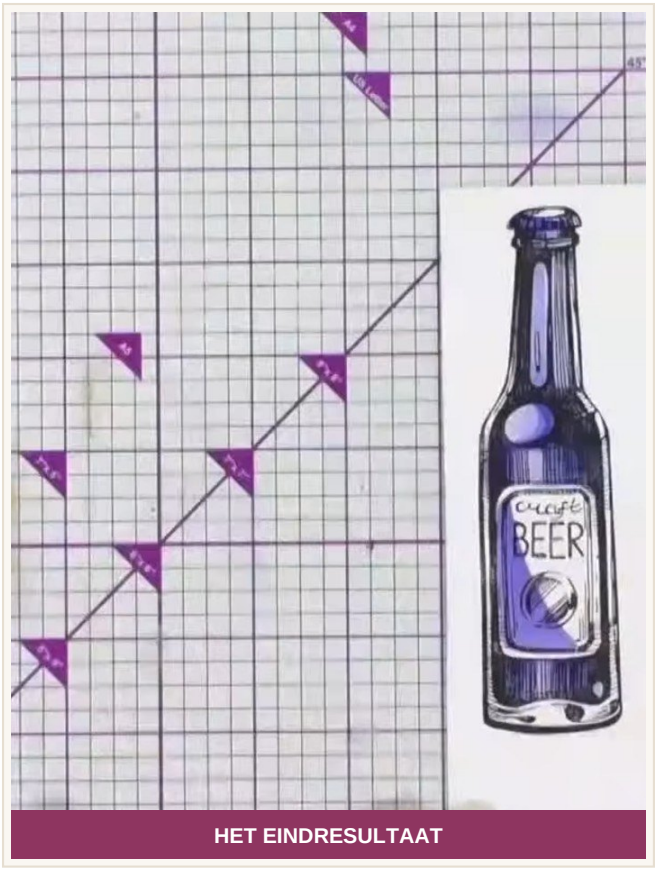
Kaart met bierfles via sjablonen en embossing

EEN PROJECT UIT ONZE LIVESHOW - HOBBYMAKER TV - 29 JANUARI 2026



HET EINDRESULTAAT

OVER DIT PROJECT

Create a sophisticated beer bottle design using layered stencils and stamps to build depth and dimension. This technique produces a realistic, screen-printed effect with light and shadow that looks professional and gallery-worthy. The finished card features beautiful watercolour-style bees and florals in natural tones of yellow, green and cream.

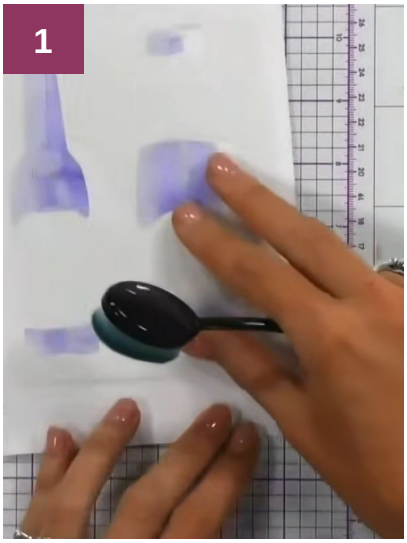
Het project begint: 15:00 na het begin van de show
In deze handleiding: 9 stappen, allemaal met foto

BEKIJK HET IN DE SHOW

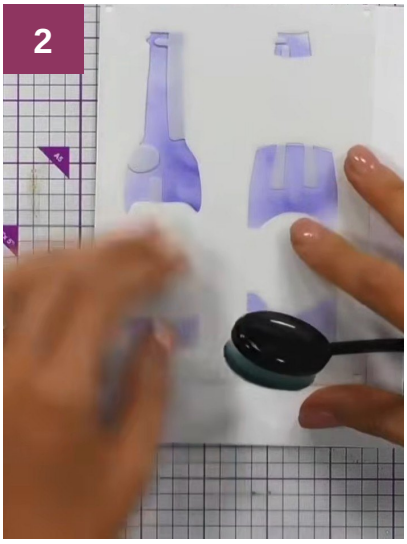
STAP VOOR STAP



STAP 1 VAN 9

Position your beer bottle stencil on white card stock. Using a blending tool or sponge, apply purple ink through the stencil, working from the edges inward to create depth and shading on the bottle shapes.

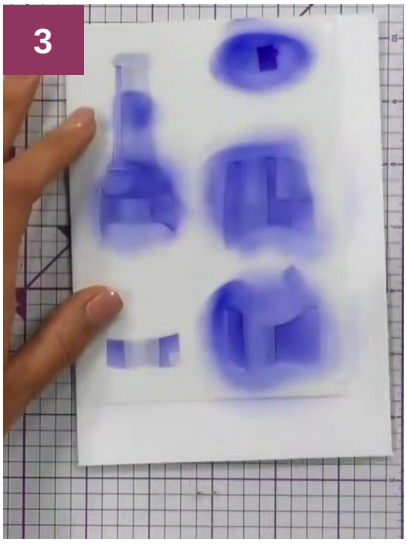
BEKIJK DEZE STAP - 15:15



STAP 2 VAN 9

Position the second stencil over the first, carefully aligning the registration marks at the top and left edges. Apply purple ink through the stencil to add additional detail and dimension to the bottle design.

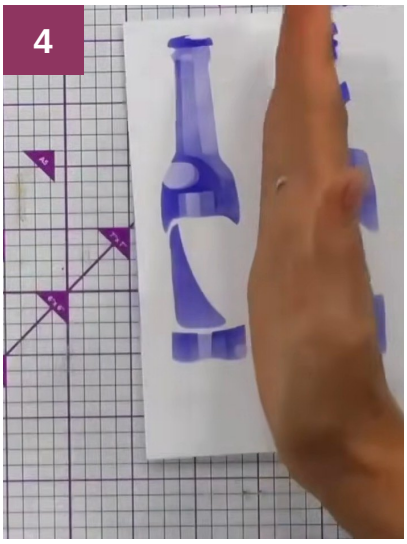
BEKIJK DEZE STAP - 15:30



STAP 3 VAN 9

Continue layering additional stencils in sequence over the bottle area, applying purple ink through each layer. Allow each layer to build up the reflective quality and realistic appearance of the craft beer bottle.

BEKIJK DEZE STAP - 16:30

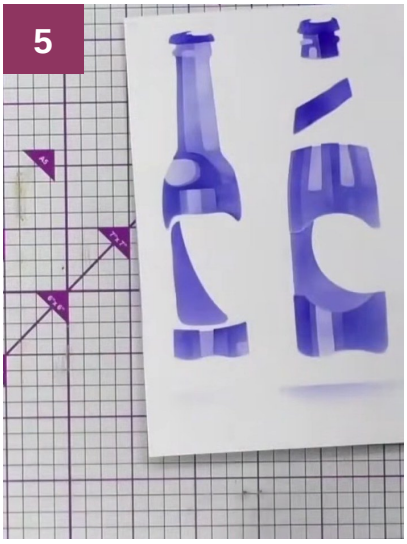


STAP 4 VAN 9

Ink up your beer bottle stamp with black dye-based ink and stamp it onto the stencilled background, positioning it to complement the shaded areas you created earlier.

BEKIJK DEZE STAP - 17:45

5

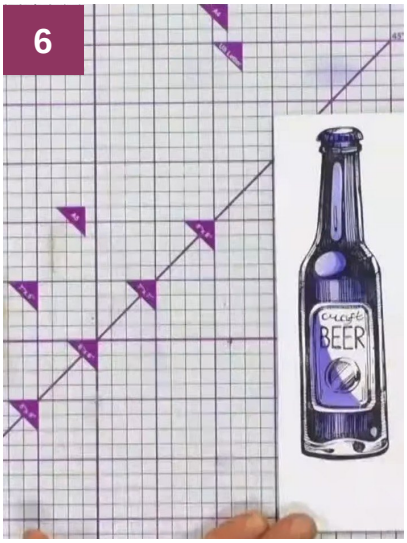


STAP 5 VAN 9

Stamp the beer bottle design a second time over the first impression to ensure all the details are clear and crisp. This will give you a bold, well-defined image ready for embossing.

BEKIJK DEZE STAP - 18:00

6



STAP 6 VAN 9

Use the coordinating dies to cut around the stamped beer bottle designs. Carefully cut out the outline shapes to create your die-cut bottle embellishments.

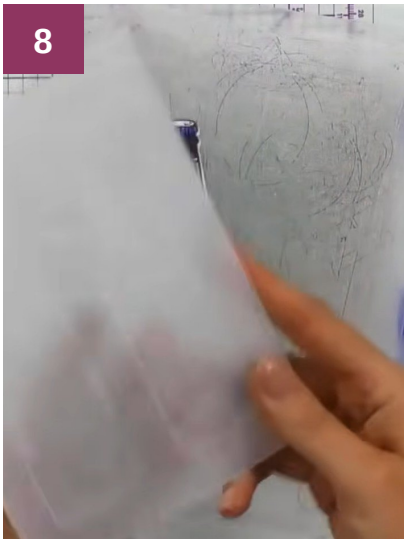
BEKIJK DEZE STAP - 21:00

7

STAP 7 VAN 9

Place your die-cut craft beer bottle into the embossing folder, ensuring it is positioned correctly with the raised side facing up.

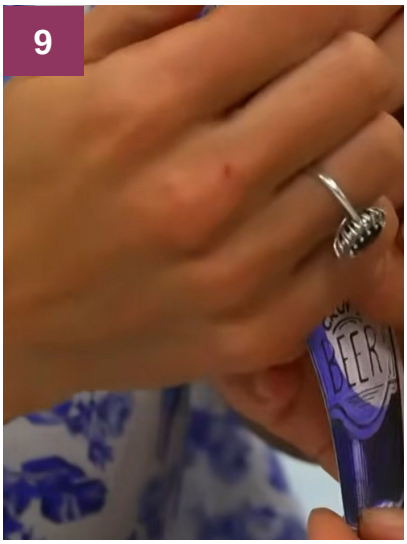
BEKIJK DEZE STAP - 22:45



STAP 8 VAN 9

Place your stamped card front into the embossing folder and run it through your die-cutting machine to add embossed detail and dimension to the bottle cap and label areas.

BEKIJK DEZE STAP - 23:00



STAP 9 VAN 9

Turn the embossed piece over to check that the detail has been pushed through properly, creating a raised dimensional effect on the reverse side.

BEKIJK DEZE STAP - 23:30

TIPS UIT DE SHOW

- Use dye-based inks rather than pigment inks for better depth and dimension, as they dry more quickly.
- If you are making multiple cards, complete all stencilling on several cards first, then all stamping, then all die-cutting and embossing for efficiency.
- You can use brown or gold embossing powder on the stamps for a vintage look instead of black ink.
