EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT - 4 OKTOBER 2022

OVER DIT PROJECT

Create a stunning interactive Christmas card featuring precision-cut spinning apertures that layer together to reveal a festive winter scene. The design showcases a delicate reindeer and tree motif in soft blues and purples with crystalline snowflake accents, all set within an elegant scalloped frame. Using die-cutting and layering techniques, you'll construct a kinetic card where the apertures rotate to create dynamic movement and dimensional interest.

STAP VOOR STAP

1

STAP 1 VAN 7

Die-cut the largest aperture frame from your cardstock using the slot spin die from the crystal Christmas die set. This creates the decorative circular frame for your spinning mechanism.

2

STAP 2 VAN 7

Die-cut a smaller decorative aperture frame from white card. This will layer on top of the larger aperture frame to create dimension and detail.

3

STAP 3 VAN 7

Stamp a frame design from the festive frames die set onto your card using black ink. Position the stamp carefully and press firmly to ensure a clear impression.

4

STAP 4 VAN 7

Insert the bottom tab of one aperture piece into the top slot of the other aperture piece. Ensure the pieces can spin freely once connected. The decorative scalloped edges should be visible on both circular pieces.

STAP 5 VAN 7

Place a small die-cut 3D tree embellishment in the centre of the aperture as a focal point. Position it carefully so it sits centrally within the circular opening.

STAP 6 VAN 7

Arrange multiple aperture layers around the outside edge of your card without gluing them down. Position the decorative die-cut frames so they can move independently, creating a kinetic spinning effect.

STAP 7 VAN 7

Mount your completed spinning mechanism onto a decorative card base. The finished card features layered circular elements in pink and green with a central 'JOI' sentiment, surrounded by decorative die-cut snowflakes and stars.

TIPS UIT DE SHOW

- The dies are engineered so pieces fit together perfectly without wires or glue.
- Both crystal Christmas and festive frames die sets work together because they share the same aperture measurements.
- You can create an advent calendar by placing numbers in the empty apertures for a countdown to Christmas.
