

Doosje zonder lijm met haak-en-oogsluiting

EEN PROJECT UIT ONZE LIVESHOW - HOBBYMAKER TV - 29 JANUARI 2026

HET EINDRESULTAAT

OVER DIT PROJECT

Create a sophisticated gift box using specialised box board that requires no glue. This elegant box features a clever hook and eye closure system that remains hidden, giving a professional finish. The technique uses decorative papers and a tab punch to create a secure, coordinated presentation perfect for special gifts.

STAP VOOR STAP

STAP 1 VAN 10

Look at the box board guide and select your desired box size. Find the corresponding paper size needed in the chart. For example, a 4x4x4 box requires 12x12 paper.

STAP 2 VAN 10

Place your green patterned card stock on the envelope punch board and align it with the score line guide. Position the left edge of the paper at the appropriate measurement according to the board's directions for your chosen box size.

3

STAP 3 VAN 10

Place your green patterned card stock on the envelope box board, aligning it with the start line marked on the board. Position the card carefully to ensure proper alignment before scoring.

4

STAP 4 VAN 10

Use the score tool with the extending arm to score down the first line. Hold the board steady and run the tool along the entire length to create a clean score line.

[BEKIJK DEZE STAP - 42:00](#)

STAP 5 VAN 10

Rotate your card stock and align it with the diagonal score line on your board. Score and punch across the card stock in the same manner as before.

[BEKIJK DEZE STAP - 42:15](#)

STAP 6 VAN 10

Flip your card stock over and carefully remove the small triangular punch-outs from the corners. These should lift away easily after scoring.

STAP 7 VAN 10

Use the hook and eye punch tool to create the closure system at each of the four corners where indicated on the board. Position the punch at the marked corner and press down firmly to create the closure mechanism.

STAP 8 VAN 10

Score firmly along all the marked fold lines using a bone folder or scoring tool to create clean, crisp creases. Work methodically through each line to ensure all folds are well defined.

9

STAP 9 VAN 10

Fold up the sides of your box, pinching the flaps at the corners to activate the hook and eye closures. The glueless design means there's no mess as the pieces lock together.

10

STAP 10 VAN 10

Ensure all four corners are properly engaged with the hook and eye system. Check that each corner is securely fastened to create a stable box structure with no glue needed.

TIPS UIT DE SHOW

- Score the fold lines firmly and thoroughly for easier assembly and a more professional finish.
- You can punch the holes first or last depending on your preference, but punching first is often easier.
- These boxes work beautifully for wedding favours, Christmas gifts, or any special occasion gifting.
