STAP 6 VAN 8

Sprinkle your chosen WOW embossing powder over the wet sticky ink on the dress area, covering it completely. Tap off the excess powder onto a piece of scrap paper.

7

STAP 7 VAN 8

Tap off any excess embossing powder back into the container. The powder can be reused, so ensure you collect it all.

8

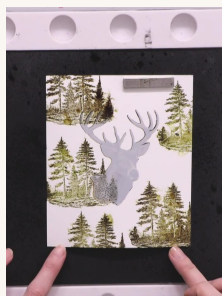

STAP 8 VAN 8

Heat set the embossing powder on the dress area using a heat gun, moving it continuously over the surface. As the powder heats, it will melt and become sparkly. Keep the heat gun moving to avoid overheating any one area.

TIPS UIT DE SHOW

- There is room for slight error when aligning the dress to the body—it looks more realistic if not perfectly aligned.
- The embossing powders last a long time, so you will get many uses from one container.
- The hotter you get the powder with the heat gun, the sparklier the final result becomes.
