

Layered Floral Card with Stencil and Die - Rose Design

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT - 8 SEPTEMBER 2022

OVER DIT PROJECT

Create a stunning three-dimensional floral card featuring a beautiful rose design. Using layered stencils in coordinating pink and red tones, you'll build up depth and dimension that gives a hand-painted watercolour effect. The coordinating die-cut elements add the finishing touch to this elegant card perfect for any special occasion.

TIPS UIT DE SHOW

- You don't have to use every layer - you can stop at three or four stencils if you prefer.
- Don't worry about getting smooth blends; sporadic colour application adds character to the petals.
- You can go back and add more colour to any layer if you feel it needs more depth.
