

Layered Bluebell Card with Soft Colour Blending

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT - 8 SEPTEMBER 2022

HET EINDRESULTAAT

OVER DIT PROJECT

Create a beautiful layered bluebell card featuring delicate blue flowers with soft, natural colour transitions. Using a five-layer stencil technique with coordinating inks, you'll build realistic bluebells in gentle aqua and blue tones with fresh green stems. This elegant floral design demonstrates how to achieve professional-looking depth and dimension through careful colour blending.

TIPS UIT DE SHOW

- The bluebell stencil has two formations - one upright and one drooping - giving you varied design possibilities.
- You can use the same colour repeatedly on different layers to intensify the effect rather than changing colours each time.
