

Layered Poppy Card with Varied Ink Colours

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT - 8 SEPTEMBER 2022

OVER DIT PROJECT

Create a stunning layered poppy card featuring delicate pink blooms with coral centres and fresh green foliage. Using a five-layer stencilling technique with watercolour inks, you'll build up depth and dimension through carefully blended colours. This elegant floral design showcases how varying ink shades on each layer creates a beautiful, painterly effect.

STAP VOOR STAP

1

STAP 1 VAN 6

Position the poppy bunch stencil on your white cardstock. Using a blending tool, apply yellow ink through the stencil in a circular motion, keeping the colour lighter around the edges and building up darker tones in the centre.

[BEKIJK DEZE STAP - 31:15](#)

2

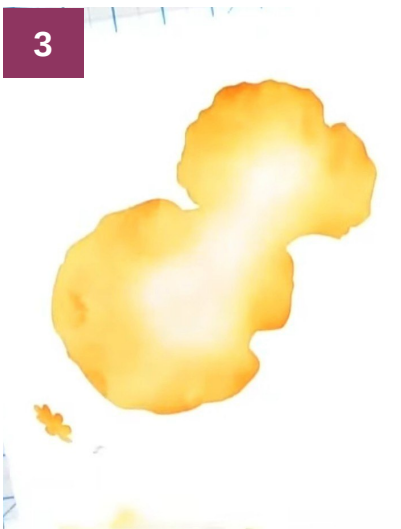

STAP 2 VAN 6

Position the second stencil layer using the registration marks. Apply a slightly darker shade of yellow ink over the stencil to build up the colour depth.

[BEKIJK DEZE STAP - 31:45](#)

3

STAP 3 VAN 6

Position stencil number three over the previous layers and apply a deeper, more saturated yellow colour to build dimension in the flower petals. Work the colour around the edges to create depth.

[BEKIJK DEZE STAP - 32:15](#)

4

STAP 4 VAN 6

Apply the fourth stencil layer to the poppy using a contrasting ink colour. This adds visual interest and helps to separate the different petal layers.

[BEKIJK DEZE STAP - 32:45](#)

5

STAP 5 VAN 6

Position stencil number five over the flower and apply your darkest colour ink to define the centre of the poppy. Use a light spraying motion to build up the depth of colour gradually.

[BEKIJK DEZE STAP - 33:15](#)

6

STAP 6 VAN 6

Position the coordinating poppy die around the finished stamped and inked design. Run through your die-cutting machine to cut out the complete poppy shape.

TIPS UIT DE SHOW

- You can experiment with unrealistic colour combinations for a more artistic, playful effect.
- Don't be precious about colour placement - slight variations add character to the finished design.
