

Sparkly Foliage Accent on Black Card with Heat-Set Embossing

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT - 7 JULI 2022

OVER DIT PROJECT

Create a striking black card background by stamping foliage elements with sticky ink pad and heat-setting them with wow powder. This technique adds dimension and sparkle to your card base, which can then be layered with additional design elements.

TIPS UIT DE SHOW

- Keep the heat gun off your card until it reaches the correct temperature to minimise lumps and bumps.
- The foliage elements can be used in a non-traditional way as accents on the back of cards, not just as traditional silhouettes.
