

Layered Peony Stencil Card with Mixed Florals

EEN PROJECT UIT ONZE LIVESHOW - FRIDAY LAUNCH - 10 JUNI 2022

OVER DIT PROJECT

Create a beautiful multi-layered card using three stencil layers from the Plush Peony stencil set, combining pink and purple inks with a gold glitter paste top layer. The result is a dimensional, blended floral design that looks professionally hand-painted.

TIPS UIT DE SHOW

- Use the less detailed stencil layers first and save the most detailed for last, as paste goes through more easily on the final layer.
- If the stencil doesn't line up perfectly, it's forgiving in design—the bleed technique creates a natural, hand-painted effect.
- You can swap out the third layer for texture paste or glitter paste instead of ink for varied effects.
