

Pigment Ink Stencilled Background on Black Card

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT - 25 MEI 2022

OVER DIT PROJECT

Demonstrate the versatility of pigment ink by stencilling directly onto black cardstock. The opaque pigment ink creates vibrant colour on dark backgrounds where dye-based inks would not work, and can be layered for intensified colour.

TIPS UIT DE SHOW

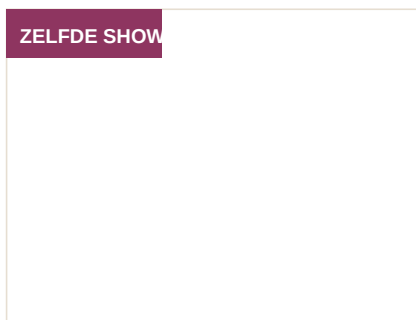

- Pigment inks stay wetter longer than dye-based inks, allowing you to move the colour around and create smooth blends.
- Pigment inks work on black card where dye-based inks cannot, making them ideal for dark cardstock projects.
- You can layer pigment ink multiple times by drying between applications to intensify colour.
