

Heat-embossed kaart met diagonale splitsing

EEN PROJECT UIT ONZE LIVESHOW - CREATE AND CRAFT - 15 MEI 2022

OVER DIT PROJECT

Create an elegant two-tone card by heat embossing the same image onto contrasting cardstock pieces, then cutting diagonally and reassembling them for a striking split design. The tone-on-tone embossing creates subtle, sophisticated dimension.

TIPS UIT DE SHOW

- The two pieces of cardstock must be exactly the same size and you must not move the stamp between stamping the first and second card.
- Tone-on-tone embossing creates an elegant, subtle effect even though you cannot see the design clearly before heat setting.
- You can cut the embossed cards multiple times and reassemble different combinations to create several cards from one technique.
