

Water-Reactive Ink Bleached Floral Card with Sparkle

EEN PROJECT UIT ONZE LIVESHOW - CREATE TOGETHER CLUB - 29 MAART 2022

OVER DIT PROJECT

Create a vibrant, artistic card by applying water-reactive ink directly to white cardstock, then using a water-spritzed stamp to bleach out a lifted floral image. The effect is magical and contemporary, finished with clear sparkle pen accents.

TIPS UIT DE SHOW

- Spritz the stamp lightly with water in small bursts rather than flooding it—this prevents a blotchy result.
- Repeat the water-spritz and stamp process multiple times for a more prominent bleached effect.
- This technique works best with water-reactive inks such as Tim Holtz Oxide, Izing Generation or similar brands.
