OVER DIT PROJECT

A small card featuring a watercoloured moon aperture with stamped pixie characters. The design uses layered card stock with a coloured moon effect created through ink blending and water techniques, topped with black-stamped figures and white embossing ink details for contrast.

TIPS UIT DE SHOW

- The closer you hold your brush to the paper when spattering, the smaller the dots will be; the higher up you are, the larger the dots.
- Keep your stamp in place without moving it when stamping multiple colours to maintain registration.
- Use foam pads under layered elements to create dimension and prevent sinking.
