Apply salvage patina distress oxide around the outer edges of the stencil using a blending brush, working in circular motions.

Layer prize ribbon distress oxide over the salvage patina around the edges to deepen the night sky colour gradually.

BEKIJK DEZE STAP - 31:00**4****STAP 4 VAN 9**

Add chipped sapphire distress oxide to the darkest outer edges, building up colour depth as you move inward towards the moon.

Spritz the inked area lightly with water to lift and blend the distress oxides, creating a galaxy or night sky effect.

BEKIJK DEZE STAP - 32:00**6****STAP 6 VAN 9**

Allow the card to dry completely, then carefully lift away the stencil mask to reveal the glowing moon.

TIPS UIT DE SHOW

- Use a stencil mask to protect the moon area and create clean, defined edges for your night sky background.
- Spritz water onto distress oxide rather than applying large blobs to maintain better control and create a more blended effect.
- Layer multiple distress oxide colours from light to dark, working from the centre outward to create natural depth and dimension.
