OVER DIT PROJECT

An elegant tag featuring heat-embossed florals on vellum with hand-painted watercolour details and layered die-cut elements. The design showcases how vellum can be transformed with embossing and painting techniques to create delicate, dimensional pieces.

TIPS UIT DE SHOW

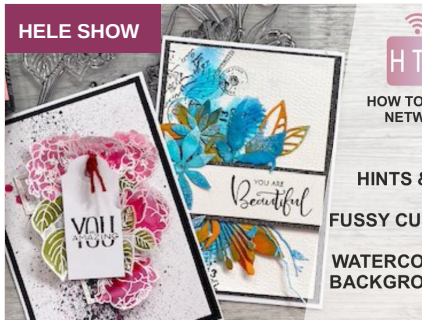

- Vellum is an underused material that works beautifully with heat embossing and watercolour painting techniques.
- White embossing powder traps water droplets when watercolouring, creating a lovely framing effect around the embossed lines.
- You can use alcohol markers instead of watercolour inks on vellum, and you can create splatters with alcohol markers as well.
