

EEN PROJECT UIT ONZE LIVESHOW - CATCH UP WITH TONI & EMMA FOR A FRIDAY LAUNCH IN THE HTCN STUDIO...

OVER DIT PROJECT

Create a layered card page by stamping floral designs, masking elements, and building up the image with watercolour and pigment inks. This technique creates dimension and allows you to layer stamps without muddy colours.

TIPS UIT DE SHOW

- Because pigment inks are permanent, you can layer watercolour over them without the colours muddying or bleeding.
- You don't have to fussy cut every element; you can mask off different stamp layers as you go to build up your image.
- Adding white highlights with a gel pen after colouring creates dimension and makes your artwork look more finished.
