

Lamination Stamp Watercolour Floral Card

EEN PROJECT UIT ONZE LIVESHOW - STAMPING TECHNIQUES - 22 DECEMBER 2021

OVER DIT PROJECT

Create a stunning watercolour-effect floral card using lamination stamps with two-part elements. The technique produces a realistic painted look by layering colours on the stamp before stamping, then misting with water to create authentic watercolour effects.

- You can be creative by swapping elements and colours in and out of the lamination stamp range.
- Spray the stamp with water for a watercolour effect, but this is personal choice - experiment to see what works best for you.
- You will get a different look every time you use these stamps, so no two cards will be identical.
