EEN PROJECT UIT ONZE LIVESHOW - ONE DAY SPECIAL - 3 OKTOBER 2025

HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant oval floating window card featuring a delicate fairy detail. This layered design uses nested oval dies to create a dimensional frame effect, with the central image appearing to float on acetate or vellum. The soft pink and white colour scheme is enhanced with decorative embellishments that add depth and visual interest to this enchanting handmade card.

Layer the acetate or vellum between the two cardstock ovals using adhesive foam pads. Position the acetate sheet over the grey oval frame, then place the white oval piece on top to create a sandwich effect.

TIPS UIT DE SHOW

- The detail on the oval dies is embossed on both the exterior and the interior cutout, giving you two decorated elements from one die.
- Using acetate or vellum behind the window creates the illusion that elements are floating in fresh air.
- You can decorate the floating centre element with additional details like holly, berries or small baubles.
