Layered Watercolour Rose Card with Sentiment

EEN PROJECT UIT ONZE LIVESHOW - CATCH UP WITH TONI FOR THE FRIDAY LAUNCH IN THE HTCN STUDIO...

OVER DIT PROJECT

A stunning three-layer rose card using coordinating stamps and dies to create depth and dimension. The layered approach gives an elegant, hand-painted watercolour effect with beautiful shadow detail that makes the flower appear three-dimensional.

TIPS UIT DE SHOW

- You can batch-make these cards by stamping multiple copies of each layer at once.
- If you don't get the layers quite aligned perfectly, it's very forgiving—the watercolour effect hides minor imperfections.
- Spray each layer lightly with water to achieve the watercolour finish, though traditional stamping without spray also works well.
