# Rise and Fall Wood Panel Die-Cut Card with Layered Sentiment

EEN PROJECT UIT ONZE LIVESHOW - CATCH UP WITH TONI FOR TECHNIQUE TUESDAY IN THE HTCN STUDIO...

## OVER DIT PROJECT

Use a decorative wood panel die to create a dimensional card with a rise and fall effect. Layer the die-cut wood panels at alternating heights to create visual interest, then add a stamped sentiment in gold embossing. This technique transforms a simple background into a sophisticated card with depth and texture.

### TIPS UIT DE SHOW

• When paper piecing the die-cut sections, take your time to match the design correctly; patience is key to getting the jigsaw pieces in the right order.
• The rise and fall effect is created by layering panels at alternating heights; you can enhance the embossed detail by rubbing white ink over the die-cut areas.
• Add sparkles on top of your artwork as well as around it to create additional visual interest and dimension.
