OVER DIT PROJECT

Create a stunning layered card using heat embossing with peacock stamps on both vellum and cardstock. The design features contrasting ink colours—a deep ocean blue on cardstock and a teal with gold on vellum—layered together to create a gorgeous dimensional effect with beautiful sparkle.

TIPS UIT DE SHOW

- Do not overheat the powder or you might burn your card.
- Vellum cooks very quickly, so move the heat gun constantly and do not stay in one place for too long.
- You can apply heat from the top or the bottom of the vellum—there are no rules, just chase the powder.
