EEN PROJECT UIT ONZE LIVESHOW - CREATE TOGETHER CLUB - 22 SEPTEMBER 2025

HET EINDRESULTAAT

OVER DIT PROJECT

Create an elegant leather-effect wallet featuring a vintage 'Happy Birthday' design with multiple functional compartments. This sophisticated project uses die-cutting techniques to craft tiered pockets, hidden note sections, and decorative panels in muted grey and cream tones. The wallet is finished with realistic leather texturing and a decorative belt-style closure for a luxurious handmade gift.

STAP 2 VAN 14

Score the exterior piece firmly along the fold line using a scoring tool to create a crisp crease in the thicker cardstock.

TIPS UIT DE SHOW

- The cardstock is approximately 300 GSM, much thicker than standard card, so score firmly before folding.
- You can cut multiple wallets at once (five exteriors, five of each pocket type) to batch-produce them rather than making one at a time.
- The wallet does not have to be used as a functional wallet; you can use the front panel as a decorative element on a greeting card instead.
